L. A. COMMUTATION FARE 10 CENTS, IS PREDICTED

Electric Service on Glendale Avenue to Result In New Rate, Is Claim

A 10-cent commutation fare from Glendale to any portion of Los Angeles is likely as soon as electric service is established on Glendale avenue.

Announcement of this fact was made yesterday noon in the Broaway Inn, 637 East Broadway, at the weekly luncheon of the East Glendale Advancement Association.

P. L. Hatch, general manager of the Glendale and Montrose Railway company, stated that a 10-cent cash fare from any point on the line to the connecting point with the yellow car line and a five-cent commutation fare would be requested from the California Railroad Commisison.

Attorney G. H. King of 106 E. Broadway, chairman of the Chamber of Commerce transportation committee, asserted that he had received reliable information that the Pacific Electric Railway company would make no attempt to obstruct the program of the Glendale and Montrose Railway company.

Chart Being Prepared

Few additional contributions have been received toward the $25,000 bonus which is to be paid for the inauguration of this electric service, according to John P. Lampert of 622 East Broadway, chairman of the transportation committee of the Eastside Advancement Association. He called attention to the fact that a chart showing the owner of each piece of property along the right of way has now been partially completed. This is being prepared in Los Angeles under the direction of William C. Wattles of 1218 South Glendale avenue.

The statement was emphasized that $1 a front foot would be a reasonable contribution on the part of property owners who will benefit by this improvement.

Attorney King stated his belief that the Glendale and Montrose Railway company would be willing to install an electric line even if the bonus should be $4,000 or $5,000 short after a consistent effort had been made to raise the full amount of $25,000.

Miss Phyllis Baker Gives College Tea

Miss Phyllis Baker was hostess Thursday afternoon at an Occidental college tea, receiving a group of her college friends at her home at 331 North Maryland avenue for a vacation reunion.

Orange and black, the Occidental colors, were Miss Baker's color scheme for decorating and gladioli, coreopsis and cannas were the flowers she used. The orange and black scheme was further carried out in the serving of orange punch, orange ice and chocolate ice-cream and orange and black marble cake.

Entertainment features of the afternoon were a series of college games and music. The first game was a T quizz, for which Miss Martina Manning of Pasadena won the prize, an orange and black tiger, the Occidental mascot.

Another clever contest was an indoor baseball game played with silver dollars. There were two teams, the California Bears, captained by Miss Mona Issenhuch of Hollywood, who will leave next fall for the University of California, and the Occidental Tigers, with Miss Louise Czerniski as captain. The Bears defeated the Tigers by a score of 12 to 8.

During the afternoon Miss Wilhelmina Gibbons of Los Angeles gave a group of piano numbers, and also played the accompaniments for some popular and college songs.

Miss Baker was assisted by her sister Maurine and theirguests were Misses Mona Issenhuch, Martina Manning, Esther Leishman, Lois Tracy, Alice Johnson, Alice and Irene Atkinson of Pasadena; Peggy Larson of Santa Monica; Jane Bruce and Wilhelmina Gibbons of Los Angeles; Ehrmal Miller of Eagle Rock; Louise Czerniski of La Crescenta; and Helen Ingledue, Virginia Eastman, Agnes Brown, Mildred Elliott, Louise Wimmer, Dorothy Brockman, Zoe Thompson, Florence Stevens, Helen Woods and Thelma and Vera Carver of Glendale.

J. R. Lockwood Back From Movie Location

J. R. Lockwood has returned to his home at 827 South Glendale avenue, from Oceanside, where he has been engaged in photographing scenes for Wesley Barry's next pictue, "Rags to Riches," which will be released in the next few weeks.

The picture is a comedy drama and scenes requiring a railroad trestle were taken near Oceanside. A review of the picture will be made in New York and it will probably be shown at a local theatre shortly after the review.

..... BULLETINS .....

By International News Leased Wire

Tallest Woman Dies

CHICAGO, July 21.—Miss May Walsh, the "tallest woman in the world," is dead. Burial had to be deferred today so that an eight-foot casket might be constructed. Miss Walsh measured exactly seven and one-half feet.

Brokerage Failure

NEW YORK, July 21.—Allan A. Ryan of Allan A. Ryan & Company, brokers, filed a voluntary petition in bankruptcy in the federal district court this afternoon. Liabilities were placed at $32,435,479 and assets at $643,523. It was one of the most stupendous brokerage failures ever occurring in this city.

Vessels Collide

DOVER, Eng., July 21—The 24,000-ton British steamer Remuera was in collision with the Morengo in the English channel early today. There were no casualties. One of the passengers on the Remuera is William "Pussyfoot" Johnson, the American prohibition worker, who is on his way to New Zealand to work for prohibition.

Panic In Yosemite

YOSEMITE NATIONAL PARK, Cal., July 21.—An avalanche on the famous ledge trail from Yosemite valley to Glacier Point today threw thousands of vacation visitors into wild excitement. One woman, Mrs. Killam, of Merced, Cal., was seriously injured and ten received minor hurts from flying pieces of rock. Probably sixty persons were on the trail when the slide occurred.

Beaten To Death

WASHINGTON, July 21.—With her 12-months-old baby clinging to her breast, the body of Mrs. Mary Copperthite, battered and bruised and apparently beaten to death, was found in a shack near here today. Except for a bruise on its head, the baby was unhurt, although blood spots on the bed clothing and the disheveled appearance of the room gave indications of a terrible struggle having taken place before the woman died.

Shot To Death

REDDING, Cal., July 21.—Jeff Hildreth, 62, a pioneer stock raiser of Shasta and Trinity counties, was found shot to death today at the gate of his stock farm, six miles from Carrville, Trinity county. He had been shot in the back apparently from ambush. Posses are seeking M. P. Rose, 80, who has a ranch eight miles from Hildreth's. He is said to have been on bad terms with Hildreth for years as a result of a law suit over $100 which he lost.

Few Mines Reopen

COLUMBUS, July 21.—No signs of resumption of work in Ohio's coal mines are visible today, although President Harding "invited" the coal operators three days ago to reopen their mines. An interview with prominent Ohio coal operators led to the conclusion that very few if any of the owners of Ohio's approximately 1800 coal mines will accept President Harding's invitation to resume operations under protection of federal troops or Ohio National Guardsmen.

All Sorts of Grief On Automobile Trip

Trouble, trouble, trouble. That was all Mr. and Mrs. W. F. White and family of 364 West Broadway enjoyed on their trip to Texas by motor car which has occupied the last six weeks. They returned this week in company with Mr. and Mrs. J. B. Maxey and family of Plainview and J. H. Pearson of Tulia, Texas.

Mr. Maxey is a prominent builder and contractor and may locate in Southern California, it is stated. The party enjoyed the trip except that they had to sit on the desert several days waiting for parts.

ROTARIANS HEAR DIFFICULTIES OF LAUNDRY WORK

W. E. Hewitt In Charge of Unique, Pleasing Program at Big Plant Here

Glendale Rotarians and visiting members from Pasadena, Los Angeles, and other clubs, dined yesterday at the Glendale Laundry, corner of Arden and Columbus avenues, where W. "Ed" Hewitt holds forth as owner and manager.

The latter had arranged quite a wonderful program which President George Karr jazzed up quite a bit with impromptu speeches on the part of J. Herbert Hall, Leon Shaw, Ed Nay, and Lem Test of Pasadena, Mr. Nay speaking of Rotary Y week at Catalina, planned for August 4 to 14, when boys who could not otherwise have a vacation will be provided with an outing by philanthropic Rotarians.

The Rev. E. E. Ford, member of the Glendale club and pastor of the First Baptist church, told of just returning from the camp and lauded the work being done. "Bill" Killgore, secretary of the Laundry Owners' association, also spoke briefly on his work, representing eighty-nine power plants from Fresno south, which have an investment of $9,000,000 and do a weekly business approximating a quarter of a million dollars.

And Music, Too

Tom, Mary Anne and Martha Fleming, nephew and nieces of Mr. Hewitt, played and sang, "In California," the official Rotary convention song, in a winsome manner for those so young. The laundry's quintet, Virginia, Ethel, Mary, Anna and Bertha, with Josephine at the piano, sang "Tuck Me to Sleep in My Old Tucky Home," and graciously responded with an encore.

The Rotarians also sang, including the famous "Clam" song and a ditty entitled "Wash, Wash, Wash," which was dedicated to Mr. Hewitt. F. J. W. Henry led the singing, insisting that Rotarians and laundry workers join hands in the rendition of "Auld Lang Syne." Paul Carson presided at the piano.

In the speech of the day, Mr. Hewitt told of the trials and tribulations he had met in establishing the business here and further stating:

"Today the power laundry has become a great industry, ranking

Harry E. Hall and Wife In Swiss Alps

Word has been received from Mr. and Mrs. Harry E. Hall, who left Glendale three months ago on an extensive tour that was to take them throughout the United States and Europe, stating that they are now in the Swiss Alps. It was stated that they recently attended the world-famous "Passion Play" at the historic hamlet of Oberammergau.

During their European tour, Mr. and Mrs. Hall have visited various places of interest in France, Italy, Switzerland, Germany and other countries on the continent. They plan to go to England within the next few days, where they will enjoy visits with friends and relatives at Southampton, which is Mr. Hall's former home city. They will leave the British seaport on August 16, expecting to arrive in New York on August 24.

Mr. and Mrs. Hall will return to Glendale in October, when they will build a home here.

Wanted—Name for Glendale's New Park

What name would you select for the new city park in Verdugo canyon?

The civics committee of the Chamber of Commerce wants suggestions for a name for the newly-acquired piece of property, and invites anyone who thinks of some fitting title to inform the committee.

Write your name and address on a slip of paper with the title which you think appropriate and send it to either The Evening News or the civics committee of the Chamber of Commerce.

Names will be received until next Wednesday, when the choice is to be made.

Miss Lillian Tracy Dance Party Hostess

As an informal honor to her house guest, Miss Elizabeth Starrepp of Colorado Springs, Miss Lillian Tracy of 340 North Jackson street entertained a group of friends last night with a dancing party.

Her guests were Misses Elizabeth Starrepp, Alice Bagley, Marjorie Yarick, Mary Chapman, Bernice Zasullo, Thelma Johnson and Clyde Smith, C. L. Taugsen, Wesley Gross, George Morrison, Tom Jackson and Harry Chapman. Miss Starrepp's mother, Mrs. C. L. Starrepp, was also a guest.

Mrs. and Miss Starrepp left today for Long Beach, where they will spend the remainder of the summer.

Samantha Dakin, 80 Years of Age to Vote First Time

While The Evening News readers are interested right at present in Glendale residents past ninety years of age, nevertheless, incidents in the lives of the "rising generation" are of equal interest and worth recording and mention must be made of Mrs. Samantha Dakin, 80 years old, of 330 Pioneer drive, who is to vote for the first time at the primary election in August.

Mrs. Dakin is anticipating the experience with great enthusiasm and after registering this morning she is busily engaged in studying up just how to mark her ballot.

1600 CHICKENS AT ED MAIER RANCH ARE BURNED

Fire That Damages Two Buildings Is Believed of Incendiary Origin

Fire believed to have been of incendiary origin last night destroyed two large chicken houses at the Ed R. Maier ranch, 1340 North Pacific avenue, roasting to death more than 1600 of the fowls. At a late hour this morning the amount of the loss had not been determined, since it was not known what portion of the property and stock, if any, was covered by insurance.

The alarm was turned in at 11:10 o'clock last night by neighbors who saw the blaze, and three truck from stations No. 1 and No. 2 answered immediately. The blaze had made such headway before it was discovered, however, that one of the buildings was entirely destroyed and the other badly damaged. Quick work of the firemen and Major Tolemie, manager of the ranch, prevented the fire from spreading beyond the two buildings.

Makes Investigation

In an investigation made this morning by Fire Chief A. H. Lankford, a number of points were brought out which, it is claimed, prove that the blaze was not accidental, but was started in each of the houses.

First, the structures are about 150 feet apart, and there was no appreciable wind at the time of the fire.

Second, the blaze in the smaller building started from the inside, as shown by the course it took and the character of the charred remains.

Third, the blaze in the larger structure started at the opposite end from that which faces the other burned building, and it is believed that this fire also was started either inside or at the base of the wall.

Fourth, there were no brooders or any kind of fire or artificial heat in either of the houses, and examination shows that the blaze did not originate with the electric wires.

Fifth, no burned debris is found between the two structures, and the dry grass between them was not ignited.

Many Chickens Burn

The larger of the chicken houses, a structure about 100 feet by twenty-five feet in dimensions, was a total loss. It contained 408 Rhode Island Red pullets just starting to lay, and about 500 valuable White Brahmas and other breeds. All that remains of this flock of more than 900 fowls are the charred bodies.

The smaller structure was about 40 by 18 feet, and only one end of it was destroyed. However, approximately 700 young chickens, some broilers and some even smaller, were either burned to death or suffocated by the smoke and heat.

An investigation is to begin at once, it is understood, to determine the identity of the vandals who started the blaze. At noon today no definite clues had been discovered, it is understood.

Ed R. Maier, owner of the Vernon Baseball club, is the owner of the ranch, which is under the management of Major Tolemie. When the major communicated with Maier this morning over the telephone, the owner was unable to state whether or not the buildings, stock or any certain part of the place was insured, since these matters are handled by his secretary. The figures were to be looked up later today and an estimate of the loss made at that time.

Two Vaudeville Acts On Legion Program

Danny Ahern, the song and dance comedian, and Harry La Mar, impersonator of old-maid types, will provide two vaudeville acts at the American Legion tonight, in addition to the big program announced elsewhere in this issue.

Both have appeared on the Bert Levey circuit and were glad to answer the call of Harry Bentley to help the Legionnaires. Every buddy will be there at 8 o'clock, 610 East Broadway.

MRS. HAGEY, 96, IS OLDEST WOMAN HERE, BELIEF

Still Takes Keen Interest In Home Affairs; Her Father Dies at 99 Years

There's a quaint little old woman whom Glendale people will recall having seen on the streets and her tiny figure, plain-styled dress, black satin bonnet, and sweet smile, has attracted their attention, but they did not know that they were seeing Mrs. Susanna Hagey of 372 Burchett street, who will be 97 years old September 18, 1922, and who, as far as The Evening News is aware, is the oldest Glendalian.

"Grandma" Hagey is a Mennonite and the cunning white lace bonnet she wears in the house, her black satin bonnet she wears outside, and her plain-styled clothes but add to her charm and picturesqueness.

Although past 96 years "Grandma" is still able to walk with her daughter, Mrs. W. C. G. Sackett, from their home on Burchett street to the shopping section of Glendale and home again.

Enjoys Sewing

In her home "Grandma" enjoys sewing, however, her failing sight prevents her doing much sewing or taking part in the home activities. But, regardless of this handicap, she maintains a keen interest in the management of the home and affairs of her family.

"Grandma" was born September 18, 1825, in Pennsylvania, near Philadelphia. Her parents were of Holland Dutch ancestry and, with their family, they lived on a farm and "Grandma" recalls working in the hay and cornfields when she was a girl.

She grew up and was married in the town where she was born and in 1855 moved with her family to Sterling, Ill. "Grandma" had but one child, her daughter with whom she makes her home. She has but one grandchild, Walter Sackett of Fort Collins, Colo., and his two little daughters, Mariana and Elizabeth, are her only great grandchildren.

Father Almost 100

In speaking of her age, "Grandma" says, "My father lived to be 99 years old. He always said he would live to be 100, but he died three months before his 100th birthday. When he was 90 years old he got out and ploughed a couple of furrows just to prove he could do it."

While "Grandma" is ready for a long walk any time she says that she thoroughly enjoys motoring and only Wednesday she took a long ride through Griffith park and took part in a picnic supper.

Mrs. H. R. Williams Hurt In Auto Crash

Mrs. H. R. Williams, who has been visiting at the home of Mr. and Mrs. C. P. Brice of 304 North Kenwood street for the past week, is confined at the Brice home as the result of injuries which she received in an automobile smash-up on Wednesday night. The car, which was being driven by Miss Eleanor Brice, crashed into the rear of a machine stopped in the middle of the thoroughfare on South Brand boulevard.

Although there were five occupants in the car Mrs. Williams, who was in the front seat with Miss Brice, was the only one to receive painful injuries. Her head crashed through the windshield, which inflicted a gaping cut on her forehead. Both shins were also cut and bruised in the mixup. Medical aid was immediately summoned, Dr. Joseph Marple taking several stitches in the gash and dressing the other wounds.

Mrs. Williams, who is visiting in California from her home in Little Rock, Arkansas, had planned to leave Los Angeles Thursday morning. She new expects to be able to board a train bound for northern California next week. Mrs. Williams is being accompanied on her tour by her granddaughter, Miss Audrey Chrisp.

Business Club to Greet Bride-Elect

An affair honoring Miss Nellie A. Warner, who is to be married early in August to Rev. Fred W. Hoffman of Ashland, Ky., will be given Tuesday night, July 25, in the Chamber of Commerce hall on Brand boulevard, by the Business and Professional Women's club and the Chamber of Commerce.

Miss Warner has served as a member of the administrative staff of the Chamber of Commerce and has also taken a prominent part in the business women's organization and the affair Tuesday night will be an expression of the esteem in which she is held by both bodies and of regret at her departure from Glendale.

All of Miss Warner's Glendale friends have been invited to take part in the affair.

AT GLENDALE HOSPITAL

Minor operations were performed at the Glendale Sanitarium and Hospital this morning on Mrs. E. V. Adams of 521 South Pacific avenue, and Mrs. R. M. Nickell of 716 North Isabel street.

Today's World News in Brief

By International News Service Leased Wire

FREE STATERS WIN PRIZE IN LIMERICK CONTEST

LONDON, July 21.—The Irish free staters have taken Limerick and captured many prisoners, according to a Central News dispatch received here today.

ARMY AVIATOR ACCIDENTALLY SHOT AND KILLED

MINEOLA, L. I., July 21.—First Lieut. John P. Roullot, army aviator stationed at Mitchell flying field, was accidentally shot and killed on the pistol range, it was announced today. The shot was fired by Lieut. Robert Purcell, who is undergoing a course of instruction in the reserve officers' training school.

TWENTY PERSONS ARE INJURED IN STEAMER CRASH

BOSTON, July 21.—Twenty persons, many of them women and children, were injured today when the steamer Dorothy Bradford, plying between Provincetown and this port, rammed a collier during a dense fog. The steamer was able to reach her dock here without assistance and later resumed the trip to Provincetown. Some of those aboard were severely hurt.

GOVERNOR ALLEN RECEIVES THREATENING NOTE

TOPEKA, Kansas, July 21.—Governor Henry J. Allen today received a threatening letter in connection with the railroad shopmen's strike. "We will not stand for intimidation of strikers in this city. You had better reform," the letter said. Inclosed in the letter was a photograph of four men garbed in the style of the Ku Klux Klan.

LOS ANGELES STRIKER ARRESTED AT S. P. SHOPS

LOS ANGELES, July 21.—The first arrest in connection with the activities of railroad strikers in Los Angeles was made today when a striker named Atherton Eberle, was taken into custody at the south entrance of the Southern Pacific shops in Mission road when he refused to "keep moving" when ordered to do so by a policeman. The striker was later released on bail.

SEC'Y. DENBY'S PLANE FORCED TO LAND IN CHINA

WASHINGTON, July 21.—"Airplane made forced landing. No one was hurt." That was the reply today of Secretary of the Navy Denby to the dispatch of Acting Secretary of the Navy Roosevelt inquiring for details of the accident over the great wall of China, in which Denby was reported to have barely escaped serious injury. Denby's cable, sent yesterday from Tien Tsin, added that details of the accident had been cabled to Secretary of State Hughes by Jacob Gould Schurman, American minister at Peking.

HARDING SUMMONS RAILWAY BOARD CHAIRMAN

WASHINGTON, July 21.—President Harding today telephoned a summons to Ben W. Hooper, chairman of the railway labor board at Chicago to come to Washington at once for a conference on the increasingly serious railway strike situation. This step on the president's part was decided upon at a lengthy cabinet meeting which was devoted entirely to discussion of the industrial situation.

MAN KILLED IN ILLINOIS POWDER MILL BLAST

EAST ALTON, Ill., July 21.—One man was instantly killed today in an explosion which wrecked a corning mill of the Equitable Powder company here. Windows in homes here were shattered by the blast, the cause of which is unknown. Edwardsville, fourteen miles away, reported hearing the detonation. The dead man is Edward Owens, 38, of Marlow, Tenn. He was the only man working in the mlil.

MISSING BOY STARTED TO "HOOF IT" HOME, REPORT

GROVELAND, Cal., July 21.—Twelve-year-old Fred Brown is missing no longer. His parents arrived here today to claim the missing lad whose mysterious disappearance from the family camp in Yosemite valley caused a forty-eight-hour search by all available park rangers. Fred wanted to return to his home in Berkeley. His parents wanted to remain at camp. Fred took the shortest way home he knew on foot. The sheriff picked him up here forty-five miles from the family camp and held him until his parents arrived.

MEXICAN BANDIT LEADER GOROZABE IS SLAIN

WASHINGTON, July 21.—The Mexican embassy today received official confirmation of the killing of the bandit leader, Gorozabe, who captured forty American citizens near Tampico, holding them for ransom. Dispatches to the embassy from Mexico City said Gorozabe was overtaken by federal troops and killed during the fight which ensued. Officials expressed the belief that the death of the bandit would put an end to the unrest caused by his followers in the Zacamiztl region, near Tampico.

SCORE IN HOSPITAL FOLLOWING BOOTLEG RIOT

READING, Pa., July 21.—Twenty persons are in local hospitals, eight in a serious condition, and four others, Earl Snyder, Otto Wentzel, Dency Eyrist, and Charles Erst, prominent local athletes, are under arrest charged with inciting a riot following a free for all fight between alleged bootleggers, whiskey runners and consumers here today which involved 200 persons. The Franklin Produce warehouse was cleaned out. A hurry call for the police prevented more serious consequences.

PIRATE CRAFT FOUND BY MIAMI, FLORIDA, POLICE

MIAMI, Fla., July 21.—The alleged pirate craft which yesterday held up the thirty-five-foot auxiliary schooner William H. Albury, resulting in the murder of the Albury's master, Captain Edgecomb, at Gun Key, was found today and a search was started for the men who are believed to have occupied her. The boat was found at the P. & O. dock here by the chief of the Miani police department. An exploded 44-calibre cartridge was found in the boat.

JAPANESE ATTACH U. S. SHIPPING BOARD VESSEL

TOKIO, July 21.—The U. S. shipping board steamer Eastern Sailor was attached by Japanese court officials today at Kobe as a result of the suit instituted against Albert Lasker, chairman of the American shipping board by the Japanese volunteer fleet and the South Manchurian railroad for 33,172 yen damages. The suit resulted from a collision in March with the Japanese steamer Sakaki Maru. U. S. shipping board officials announced they will settle the suit.

U. S. LABOR BOARD RESUMES RAIL CONFERENCES

CHICAGO, July 21.—Despite the failure of its repeated efforts to settle the national railroad strike, the United States railroad labor board today resumed its conferences with parties to the walkout of shopmen. Chairman Ben W. Hooper of the board, was in telephone communication with parties to the strike, while at the same time W. L. McMenimen, labor member and "Pacificator," was meeting representatives of the clerks and freight handlers, the union which appears nearest to a general walkout.

MERGER OF THREE CITIES FAVORED BY OFFICIAL

City Manager W. H. Reeves Gives His Views Upon Consolidated Idea

Consolidation of Glendale, Burbank and Eagle Rock was strongly endorsed this morning at the city hall by City Manager W. H. Reeves.

"I am very strong for it," he asserted. "I think it would be a good thing."

The term "annexation" applied to the suggested merger was denounced by Mr. Reeves who called attention to the fact that Burbank and Eagle Rock are just as important in proportion to size as Glendale.

"It is not what we can get for Glendale as what we can legitimately offer these folks to induce them to unite with us," remarked Mr. Reeves. "What we want to offer them is better service than they can get as separate communities. The interests of these communities are identical with ours. What helps them, helps us; what hurts them, hurts us. The closer the relation between us the better."

Logical, He Says

Mr. Reeves commented on the tendency on the part of big business to secure efficiency by consolidation. He mentioned particularly the merger of small banks with big ones. He characterized the suggested municipal consolidation as "the logical thing to do and the business thing to do."

The economy and efficiency of a joint administration was emphasized by Mr. Reeves. He estimated that the saving to the taxpayers might amount to as much as 50 per cent. He spoke of the folly in supporting three groceries to a block when one would serve a district just as well and said that the same principle applied to governmental administration. He denounced the necessity of having three health departments and three building departments when one would do the work as well.

"Of course, consolidation wouldn't appeal to the man who was eliminated," declared Mr. Reeves. "But there is no need to employ three officials to do the work of one."

From Whole District

There is no desire on the part of Glendale to foist its public of-

(Continued on Page 16)

Mrs. A. J. Maxwell Is Hostess for Class

The I. T. W. class of the Sunday school of the First Baptist church enjoyed a pleasant afternoon on Tuesday as the guests of the class president, Mrs. A. J. Maxwell of 400 West Stocker street. The affair, which took place on the lawn surrounding the home, was opened by devotionals led by Mrs. Clarence Kalbaugh.

Following the regular monthly business meeting, in which plans were discussed for the making of Christmas gifts to be given to missionaries and missionary fields, the guests enjoyed a social gathering.

Courses of delicious refreshments were served by the hostess, Mrs. Maxwell, and Mrs. P. L. Hatch, Mrs. Herbert Lore and Mrs. Robert Morrow.

It was announced during the afternoon that the class will hold a picnic and outing at Verdugo Woodlands sometime in the month of August.

Members of Classes Enjoy Social Time

The W. W. G. girls of the First Baptist church, which consists of the members of both the Amoma and Pollyanna classes of the Sunday school, were entertained on Thursday afternoon and night by Mr. and Mrs. E. C. Boynton and their daughters, Misses Gracia and Constance Boynton, at their beautiful home in Verdugo Woodlands. The afternoon was enjoyed by the twenty-five guests in various games and amusements on the spacious tennis courts surrounding the house, which were naturally decorated for the occasion by verdant growths of ferns, vines and shrubbery along the sides.

Late in the afternoon the merrymakers assembled on the vine-covered patio at the side of the house, where tables had been spread for an "out-of-doors" supper. The huge fireplace was used for the purpose of roasting wieners, which made the party complete.

The evening was enjoyed in music and games.

Plans of New Hotel Up for Discussion

Plans for the new hotel were unanimously endorsed last night at an informal meeting in the assembly room of the Chember of Commerce which was attended by about thirty bondholders and others interested in the project. The blueprints were discussed in fullest detail and numerous questions were answered by George A. Whitney of the W. Ross Campbell company.

WESTERN UNION'S ATTITUDE GIVEN

Company to Establish Office In Eagle Rock As Soon As Business Warrants

Several days ago the public at the suggestion of several business men, got into communication service department of The News, with the Western Union Telegraph company in the matter of having the company establish a telegraph office in Eagle Rock.

It is a rather peculiar situation that a city the size of Eagle Rock should be without telegraphic communication. A letter received by The News today from the company throws interesting light on the subject.

According to the Western Union officials, considerable thought and study have been made on the matter of opening a branch in Eagle Rock for some time. A recent survey disclosed quite conclusively to them that the volume of business is not heavy enough to justify a branch office here.

It appears that the overhead expense alone in operating a branch office suitable for a city the size of Eagle Rock would run around $300 per month. In order to justify this expenditure the revenue would have to be at least $1000 per month. The present telegraph business originated at Eagle Rock, is, as near as can be figured, about $200 per month, according to W. R. Williams, Los Angeles, city superintendent of the Pacific division.

This official further advises that the company is not unmindful of the rapid growth of Eagle Rock, and gives every assurance that when the proper time arrives it will be more than glad to open an office.

Troops Prepare for Trouble With Miners

PITTSBURG, Pa., July 21. — Western Pennsylvania coal operators today set about to reopen their bituminous mines and produce coal.

From one end of the state to the other every armory was bristling with excitement and activity. Troops were either leaving or preparing to leave immediately for the coal region within a radius of 150 miles of Pittsburg. Some troops were already on their way this morning. By tomorrow night the major part of the 28th division will be under arms. A part of it will be sent to the western counties, the balance of it will start for camp and will be held there.

Coal will not be dug before the middle of next week at the earliest. Mines that have been idle three months or more must be cleared of debris and put into shape. Operators and miners agree on one point at least that it will take from three days to three weeks to put the mines in shape.

COME OUT OF THERE! . . . By Morris

Protected by George Matthew Adams.

MAD DOG SHOT BY OFFICER AFTER HARD CHASE

Excitement In East and South Sections of Eagle Rock During Scare

Excitement reigned in Eagle Rock yesterday afternoon when it became known that a mad dog was at large in the city. Mothers kept their children indoors, and for a time the sections of the city in which the dog was reported seen resembled the famous "Deserted Village."

The first report came from the east end of town when a woman called up the city hall and stated that a mad dog was at large in the neighborhood. City Marshal Claud S. Bramble jumped into an automobile and rushed to the scene, but the dog was gone. He scoured the neighborhood, but the canine was nowhere to be found.

Keeps on Dog's Trail

Before Mr. Bramble had returned, another call was received at the city hall from several homes on South Central avenue that the dog was in that section. Soon after the report had been received, Marshal Bramble returned, and immediately drove down Central avenue. In the yard at 721 Central he found the dog, which was covered with sores, slavering at the mouth, and displaying unmistakable symptoms of rabies, it is understood.

To put the animal out of its misery, and to rid the town of the menace, Marshal Bramble shot the dog.

Carelessness Cause

This case may be the direct result of letting a dog run at large, it is stated. Many times, if an owner goes away for a time without making provision for his dog, or if he lets the animal run free, it becomes lost.

In this part of the country, since it is so thickly built up, it is contended that a dog running at large often finds little to eat and drink. If he is not taken care of, he becomes weaker and weaker until finally he either dies from starvation and weakness, or he contracts rabies and goes mad. In that case, he dies miserably, and often causes the death, or at least the serious illness, of persons who are bitten.

Plan Prosecution

"Keep your dogs tied up," advises Marshal Bramble, "or in a yard which is fenced so that it can not escape. By doing this you can not only obey the city ordinance which prohibits dogs running at large, but also prevent the chance of your pet dying and perhaps endangering a number of people.

Offenders of the ordinance are to be severely prosecuted by the city, it is understood, especially in the summer when the danger of rabies is said to be the greatest.

MOUSE LOSES HIS PARTNER IN CITY HALL'S BIG VAULT

Little Fellow Smothered As He Dined on Delectable Building Permits

The city mouse has lost his partner.

Until about ten days ago two little mice made their home in the Eagle Rock City Hall, sipping, it is said, of City Clerk B. B. Martsolf's ink, chewing on the tires of the old fire engine for sustenance, and making dessert of the musty city records which have lain these many moons in the archives.

But about two weeks ago one of these mice conceived the idea of getting some particularly delicious building permits, written in a particularly delectable kind of lead pencil. At least that is the supposition.

Anyway, these records being in the vault, the bolder of the two mice slipped into the vault during the day, and as soon as Mr. Martsolf had locked the big steel door at 5 o'clock, he started eating.

The air in the vault evidently gave out, for the mouse never left the burglar proof room, either dead or alive. City employes testify to the fact, for unsavory smells still remain, and so snugly had he hid himself that his corpse could not be found.

So the other little mouse, presumably wiser, sticks to the plainer and more wholesome food to be found in the main office, and it is noticed that in his friskings, he avoids the door to the vault.

FALSE ISSUES IN MOORE CAMPAIGN ARE CHARGED

Attention of Candidate Is Called to Untrue Stories Being Circulated

An open letter, calling attention to false issues raised by supporters of C. C. Moore, candidate for the Republican senatorial nomination, has been addressed to Mr. Moore, by W. B. Mathews, chairman of the Johnson for senator organization in Los Angeles The letter, which also points out that Mr. Moore in 1921 warmly endorsed Senator Johnson's work on the tariff, is in part as follows:

"Your candidacy for the high office of United States senator carries with it responsibilities to the California electorate that embolden me, with due respect, to direct your attention to certain aspects of the conduct of your campaign which I feel require explanation.

"Newspapers and men who assume to be spokesmen for your candidacy are charging, by innuendo and gy direct assertion, that the present senior senator from California, whose re-election you are contesting, is disloyal to the national administration and antagonistic to the president. They are endeavoring to create the impression in the public mind that this is an administration and anti-administration fight and that the president and the national leaders of the Republican party are supporting you in a common effort to defeat Senator Johnson.

Without Foundation

"You are, of course, aware, Mr. Moore, that this is a false issue, without foundation in fact, and that its inevitable result, if persevered in, must be to embarrass the president and perhaps subject him to severe and unjust criticism by a hostile partisan press in the event of your defeat at the polls.

"You must know, as I do, that the relations between the president and Senator Johnson are most cordial, that the president consults the senator on nearly every important national question and that he has voluntarily expressed his regret for Senator Johnson's sincerity in those instances when they have not been in agreement in matters of public policy.

"You undoubtedly know also as any one at all acquainted with official Washington must know, that the brilliant successes achieved by Senator Johnson in obtaining the highest protective tariffs ever placed upon California's principal products can mean only that he enjoys to the fullest degree the co-operation and support of the Republican leaders of the Senate, for they are the men whose votes and influences enabled him to carry his phenomenal tariff program through."

"With these facts before you is it not incumbent upon you, Mr. Moore, in all fairness, to counsel your campaign managers to abandon this false issue which they have raised in your behalf?

Efforts to Belittle

"May I direct your attention further, Mr. Moore, to the efforts made from the same sources assuming to represent you to belittle the tariff achievements of Senator Johnson and to assert, quite absurdly in the face of the record, that the credit for these achievements, of such paramount importance to the welfare of the state, belongs to other men?

"It is hardly necessary to remind you, Mr. Moore, that only a little over a year ago you personally participated in the preparation of resolutions, which were unanimously adopted by the California Olive association, enthusiastically commending Senator Johnson for his work in obtaining an adequate tariff on California olives in the emergency tariff bill, which is now in effect.

"You are aware that equally favorable duties on olives and olive products have been incorporated through the efforts of Senator Johnson in the permanent tariff bill, now before the Senate.

"In this connection, permit me to quote the following excerpt from the minutes of the annual meeting of the California Olive association, held on April 18, 1921:

"Mr. R. G. Merryman moved that a vote of thanks be tendered to Senator Johnson for his support of the olive industry in the tariff matter. Seconded by Mr. C. C. Moore.

"The above resolution was adopted unanimously.

"I am advised, Mr. Moore, that you are the largest individual grower of olives in California, and that you will be the greatest single beneficiary of the increased tariff rate on olives.

"Again may I not urge you, in a spirit of common fairness, to point out to your supporters the necessity of abandoning these false and unjust attacks upon Senator Johnson and confining themselves to more honorable and truthful political criticisms?"

P.-T. A. Film Show Tonight at School

The photoplay, "The Glorious Fool" is to be presented at 7:45 o'clock this evening in the auditorium of the Central school, Eagle Rock, by the local Parent-Teachers' association, it is announced. The film is a Goldwyn product, starring Helene Chadwick and Richard Dix, and it is hoped by the association that a large delegation of Eagle Rock people will attend to help defray playground expenses this summer.

Mrs. A. G. Reily and Sister Are Hostesses

About twenty of the young matrons of the Congregational church were the guests of Mrs. A. G. Reily and her sister at the home of the former, 550 East Colorado boulevard, Eagle Rock.

A delicious picnic luncheon was prettily served on the spacious lawn, where hammocks, swings and easy chairs were temptingly arranged in the shade of the big trees. It is an ideal place for such gatherings and the women were enthusiastic in their appreciation of the gracious hospitality of their hostesses.

Nature Study Class to Visit Museum

The Eagle Rock class taking the American college course under Mrs. Fisk's leadership has begun their month of nature study and will have their next Wednesday's meeting at the Southwest museum where they will meet for luncheon at 12:30. Several of the members are bringing guests and they are looking forward to a gala day.

Many Chinese women have distinguished themselves as poets.

Mrs. G. E. Daniels and daughter Helen of 142 North Central avenue are spending two weeks at Catalina.

Mr. and Mrs. Earl St. Claire of 806 West Maple street recently entertained a party of Los Angeles friends at a dinner in honor of Mr. St. Claire's brother, Albert St. Claire, of Los Angeles.

Mr. and Mrs. A. A. Barton of 920 East Mountain street left several days ago for Green Valley, a resort located near Big Bear Lake, where they will spend a two weeks' outing.

Members of the Mizpah class of the Baptist Sunday school entertained their families last night at a picnic dinner in Brookside Park, Pasadena. There were thirty-three seated about the supper tables.

Mrs. E. R. Naudain and daughter, Miss Lois Naudain of 323 East Lomita avenue, Miss Dorothy DeBerry of Texas and Miss Florence McLaughlin are members of a party that are enjoying an outing today at Ocean Park.

Mr. and Mrs. Richard Buck of 810 West Maple street enjoyed the past week end in an automobile trip to San Diego, Tia Juana and other points of interest in that section. They were accompanied by a party of local friends.

Mr. and Mrs. William Sipple of Leemore, California, who have been guests at the home of Mrs. Sipple's parents, Mr. and Mrs. Anthony Ambrosini of 146 South Jackson street for a few weeks, left for their home several days ago.

J. R. Bright of 319 North Maryland avenue motored to Los Angeles yesterday, where he greeted his brother-in-law, S. S. Smith of Beloit, Wis., who had just arrived in the southland for a several months' visit. Most of Mr. Smith's time will be spent in Glendale.

Hill McGillis of 1003 East Lomita avenue returned Thursday night from a week's fishing trip to several streams and lakes in the Big Bear region of the San Bernardino mountains. He was accompanied on the outing by "Bill" Cathcart of Los Angeles, former resident of this city.

Mrs. David Black and her daughter, Miss Esther Black of 1450 Kenneth Road, accompanied by Mrs. Daniel Campbell and Mrs. C. E. Hutchinson, both of this city, enjoyed an automobile trip to Santa Barbara on Wednesday, where Mrs. Campbell and Mrs. Hutchinson were called on business in the interests of the Tuesday Afternoon club.

Word has been received from Dr. and Mrs. H. R. Boyer of 232 North Orange street, who left Glendale several months ago an extensive visit throughout the eastern part of the United States, stating that they will leave New York immediately for California. A number of stopovers have been planned for the return trip, they expecting to arrive in Glendale some time during August.

Mrs. G. K. Barnes of 1311 North Brand boulevard returned to Glendale Thursday after having spent three days visiting at Long Beach, where she was the guest of Mrs. Charles Albert and Mrs. Alice Everson, both of whom were former neighbors in Milwaukee. On Wednesday night Mrs. Barnes was the guest of Mr. and Mrs. F. B. Marshall of Huntington Park, who were also former residents of Milwaukee.

Mr. and Mrs. Gordon L. Smith and son James of 205 West Chestnut street, and Mrs. Katherine Raymond of 712 South Glendale avenue, have returned from a motor trip and ten days' camping in Yosemite valley. They report a very pleasant outing, an uneventful trip going and coming, and met Glendale people in many different camps, which added to their pleasure. So many camps are now established through the valley that accommodations are unusually good.

Mr. and Mrs. B. V. Brasher of 1017 Melrose avenue spent Thursday with friends in Los Angeles.

Miss Lillian Tracy of 340 North Jackson street is to spend the week-end at Ocean Park with her aunt, Miss Carrie Madden.

Catherine Guthrie of Patterson avenue is to be the guest tonight at a dancing party given at the Eagle Rock home of Doris and Mildred Osmun.

Mrs. Albert E. Angier and her daughter, Mildred Louise, of North Orange street, are planning to leave Sunday for several days with relatives and friends at Manhattan Beach.

Mr. and Mrs. D. F. Reynolds of 904 East Wilson avenue and their infant son are expected home tonight from Seattle, where they have spent the past two weeks visiting with relatives and friends. The return trip is being made by water.

Mrs. H. L. Allen of 806 East Maple street, who has been visiting with relatives and friends in and around Oakland for the last two months, is expected to return to Glendale next week. During Mrs. Allen's absence her home has been occupied by her brother-in-law and sister, Mr. and Mrs. Earl St. Claire.

Mrs. W. Barr of Valley View Road and Miss Jennie Brown of 209 North Kenwood street returned to Glendale Wednesday night from a three days' outing at Catalina Island where they visited Mrs. Barr's son, Billie. The latter, who is enjoying the Y. M. C. A. vacation on the island, will return with the rest of the boys next Saturday night.

Mr. and Mrs. W. H. Boothby of 348 West Lexington drive are entertaining as their house guests Mrs. Boothby's mother and sister, Mrs. C. D. Morgan and Miss Mary Morgan, both of Spokane, Washington. Last week Mr. and Mrs. Boothby, accompanied by their visitors, enjoyed a three days' motor trip to San Diego and other cities in the southern section of the state.

Mr. and Mrs. Frank C. Ayars and children, Carolina, Robert and Alice, of 315 North Orange street, will leave tomorrow for their summer home in Hermosa Beach, where they will remain until September 1. During their absence the Ayars home will be occupied by Mr. Ayar's brother and sister-in-law, Mr. and Mrs. A. C. Ayars, who are now living at 400 West Elk avenue.

Mrs. E. H. Willisford was the honored guest Thursday at an all day gathering of women of the Congregational church at the C. B. Guthrie home at 314 Patterson avenue. Mrs. Guthrie and Mrs. A. D. Cross were hostesses and they were assisted by Mrs. C. W. Gist. The women's auxiliary met in the morning and after luncheon tne missionary organization was led by Mrs. Willisford.

R. L. Foster Home Scene of Gathering

The home of Mr. and Mrs R. L. Foster of 632 East Orange Grove avenue was on Wednesday afternoon the scene of the regular monthly business and social meeting of the Thimble Club of the Columbia Circle of the Ladies of the Grand Army. More than thirty members were present, most of whom were from Los Angeles, the home of the "Circle."

The guests assembled at 12 o'clock, where they enjoyed "a real noonday dinner," which had been prepared by the hostess. Following the dinner Rev. Lee Claire of Eagle Rock, who is commander of the local organiaztion of the G. A. R., opened with prayer, after which the following women made brief speeches: Mrs. Jessie of the local organization of the Ladies of the Grand Army for California and Nevada; Mrs. Belle Weaver, president of the Columbia Circle, which is the largest in the West; Mrs. Ethel Boyd, president of the Thimble club; and various others.

The afternoon was enjoyed in sewing and also in several social features, the principal of which was the raffling of a number of dresses which had been completed by the members.

Virginia Freeman's Pupils Give Recital

The home of Mr. and Mrs. H. W. Sayre of South Central avenue, was the scene last night of a musical inaugurating a series of open lessons by pupils of Mrs. Virginia Freeman. Mrs. Freeman has arranged the series to familiarize her pupils with concert work.

Included in the program were: "Dreams" (Grieg), "Baby's Boat" (Gaynor), by Miss Frieda Goertz; "morning" (O. Speaks), by Miss Bernice Colfritt; "A Rain of Flowers," by Mrs. Aline Roberts. "Mme. Butterfly," waltz song from "Romeo and Juliet," and "La Boheme," by Mrs. Laura J. Burris; Samson et Delila, and "Recompense" (Hammond), by Miss Helen Sayre; duet, "Regala (Rossini), by Mrs. Burris and Miss Sayre.

Mrs. Freeman delighted with several songs. The accompanists were Miss Helen Sayre and Mrs. Roberta T. Young.

Mrs. M. A. Adams is leaving Chicago for home on July 23rd, having purchased her fall line of millinery which will include many well known eastern makes. Her announcement of opening will be made on her return.—Advertisement. 7-21

Powdered borax can be used in place of wax when a floor is to be used for dancing and wax is not available.

Deaths and Funerals

Funeral services were held yesterday in Los Angeles for George Bollinger, with interment made at Forest Lawn.

Mr. Bollinger was 52 years of age, and was proprietor of the Bollinger Drug company of Burbank, and had many friends and acquaintances in Glendale. During his long illness he spent three months at the Golden West sanitarium and was taken from there to the home of his brother in Highland Park, six weeks ago, where he remained until his death occurred this week.

MRS. ALICE R. JOHNSON

Mrs. Alice R. Johnson passed away this morning, Friday, July 21, 1922, at her home in Tujunga. She was 37 years of age and is survived by her husband, Cornelius B. Johnson, two daughters, Miss Lucille R. Johnson and Miss Margaret M. Johnson, and two sisters, Mrs. Bertha Barnhart of Seattle and Mrs. Ethel Nance of Coachella. Funeral services will be held at 2 o'clock, Monday, July 24, in the Little Church of the Flowers, under the direction of Pulliam-Kiefer & Eyerick.

MRS. F. B. RICKSECKER

Word was received in this city today announcing the death of Mrs. F. B. Ricksecker, former resident of Glendale, who died in Bethlehem, Pennsylvania, on Monday, July 17, 1922, of heart failure. At the time of her death Mrs. Ricksecker was spending a vacation in the Pennsylvania city with her parents, Rev. and Mrs. M. E. Kemper. Mr. Ricksecker has gone east to take charge of the funeral.

Mr. and Mrs. Ricksecker will be remembered by their Glendale friends as living on West Doran street for more than a year prior to last Christmas, when they moved to Escondido on account of Mrs. Ricksecker's poor health. Mrs. Ricksecker left Escondido for her eastern trip about June 1.

Aids Poor Children; Neighbors Protest

NAHANT, Mass., July 21.—"No court in the land can regulate a child's laughter."

Such is the philosophical answer of Mike De Carle, to his wealthy and fashionable neighbors who have summer homes near his own and who have registered their disapproval of Mike entertaining poor city children, and "working men" by summoning him to court.

Before his fine, eighteen room summer home, Mike placed a notice reading:

"Any working man, regardless of color, creed or nationality, can have the use of a room in this house for one week free of charge."

Mike has been an appreciated host and his guests many. He provides them with food and refreshments and their enthusiasm has been so unrestrained that Mike's neighbors have registered objections.

Trouble Is Feared As Troops Arrive

CADIZ, Ohio, July 21.—Ohio national guardsmen are expected here some time this morning to guard stripping mines operated near here, where non-union men are employed.

Sheriff O. H. Martin declared his small force of deputies are entirely unable to cope with the situation, and late yesterday appealed to Governor Davis at Columbus for protection.

It was said at the sheriff's office today that a large force of men, presumably union miners, were massing near the mines and trouble was feared.

Unlike other Ohio coal fields, mines here are operated by stripping off the top, and these are the only unorganized mines in the state, with the exception of a few small wagon workings.

Santa Fe Official Kidnaped, Alleged

SACRAMENTO, July 21. — Charges that a Santa Fe railroad official at Riverbank, Stanislaus county, was kidnapped by striking railroad shopmen and that general lawless conditions exist there, were made in a telegram to Governor W. D. Stephens from I. L. Hibbard, general manager of the Santa Fe at Los Angeles. It was announced the governor's office had communicated with the district attorney of Stanislaus county and was advised local officers had the situation under control.

NEW THEATRE PLANS

A Detroit motion picture theatre has been built in three sections that, with little alteration, can be used separately for business purposes should the theatre be closed.

Postoffice Open to Inspection Saturday

Between the hours of 4 and 6 o'clock tomorrow afternoon the Glendale postoffice at 213 West Broadway will be open to the public for inspection.

This was the announcement made today by D. Ripley Jackson, postmaster, who stated that all those interested will be conducted through the building and all the details of equipment and the handling of the mails explained to them.

Tomorrow also the local office will inaugurate the policy of giving part of the employes a short holiday period of a few hours on Saturdays. The windows will remain open as usual,, and a force sufficiently large to handle all the work will be retained, while the others are off. Then next Saturday others will be allowed the vacation period, and so on in rotation.

The office is now settled in the new location, and affairs are being handled in their natural way, the confusion and extra work due to just moving in having been practically eliminated by now. It is the belief that many local people will be interested in seeing just how their mail is handled, and to these persons the postmaster extends a cordial invitation to inspect the building tomorrow afternoon.

Anniversary Service At Lutheran Church

"The fifth anniversary of the dedication of our church will be celebrated with special services at 11 o'clock Sunday morning," remarked Dr. H. C. Funk of the First Lutheran church, this morning. "All the cordially invited to attend our services."

Special music will be presented for the occasion. Miss Mary Sherrick will play the organ prelude which will be "Adoration." The choir's anthem will be "My Strong Salvation." Miss Helen Esterly will sing a solo, "Come Unto Me." Mrs. Paul Hoffman and J. H. Niebank will sing a duet, "Love Divine, All Love Excelling."

"The Gate Beautiful" will be the subject of the morning sermon.

The First Lutheran church of Glendale was dedicated to God as a place for worship on Sunday, July 22nd, 1917. Dr. H. C. Funk was called to become the permanent pastor January 1st, 1921. Under his direction the progress of the work has been very gratifying and many new members have been added to the church. The financial condition of the church is the best in its history.

The character of the services has been made to conform to the true Lutheran type of devotion. The altar, the cross, the common service and the vestments are used.

Important changes and an enlargement of the church edifice are contemplated. The proposed new addition will afford ample room for the social life of the young people and serve as parlors for the women's guild which has become one of the largest and most helpful organizations in the congregation.

Jackie Coogan Case Before Superior Court

LOS ANGELES, July 21.—Representing the unusual situation of both parents of a minor child asking the appointment of the same guardian of his estate, the case of Jackie Coogan, juvenile film star, was called today before Judge Rives.

The petition was filed by Jack Coogan and his wife, Lillian Coogan, parents of Jackie, and they were in harmony with the plan of Mrs. Coogan being named legal guardian in order to conserve the estate of the child actor, which consists of his large earning power in the films.

The guardianship was sought also in order that the parents might be protected from malicious gossip from those who might believe that the juvenile star's salary was being exploited or misused by the parents.

Right Phone Number Is Glendale 2339

Through an error of the advertising writer the telephone listed as Glendale 2539 in McIntyre Brothers' oil advertisement, occupying a half page in last night's edition of The News, should have been Glendale 2339. If you wish to get in touch with McIntyres' representatives call the latter number.

BROWN COAL FOR FUEL

A deposit of brown coal estimated to contain 150,000,000 tons in an area of about a square mile, will be utilized by the Australian state of Victoria for fuel in an electric power station.

PREVIEW OF RADIO PICTURE TONIGHT AT GLENDALE

Film Should Be Attractive to Fans; Other Numbers Will Be Offered

Preview of the first radio production ever made will be given at the Glendale Theatre tonight, it being entitled "Saved by Radio." This should prove immensely attractive to radio fans who have tired at "listening in" and want to see something in the way of films and hear the bell-like music of Paul Carson at the organ.

Other numbers on the program will include "The Man Who Married His Own Wife," with Frank Mayo in the stellar role. John Morton, a rough sea captain, rescues a beautiful society girl during shipwreck. They fall in love and marry.

How he loses her love, and the unique method he takes to win it back by disappearing, making a new man of himself and then coming back to her, makes one of the most absorbing pictures seen here in many a day. Sylvia Breamer plays the role of the twice-won wife.

Separate Peace Plans Under Consideration

CHICAGO, July 21.—Whether the striking shopmen will make separate peace with individual railroads or insist upon a blanket settlement of the controversies will be decided, it is expected, at the meeting today of the executive council of the railway employes' department of the American Federation of Labor.

Two railroads, the Baltimore & Ohio and the Southern railway, have expressed willingness to negotiate with their employes for an adjustment of the controversy. B. M. Jewell, strike leader, and his executive committee, will meet here today, and, it is believed, will decide whether to sanction or oppose individual settlements with the various roads.

If decision is reached to negotiate with the roads individually, it is believed that other railroads will follow the lead taken by the Baltimore & Ohio and the Southern.

Much interest was manifested here today in the meeting of the Grand Lodge of the Brotherhood of Maintenance of Way employes in Detroit, which is expected to decide that union's attitude toward the strike. Advices received here declared that E. F. Grable, head of the Brotherhood, is confident that no strike of his organization will be ordered.

Mattison B. Jones Talks to Kiwanians

Mattison B. Jones of 1901 Kenneth road, Democratic candidate for nomination for governor, was the speaker this noon at the Broadway Inn, 637 East Broadway, before the members of the Glendale Kiwanis Club.

The attendance prize was furnished by "Bob" Adams of 114½ South Orange street and the silent boost was given by Ray Galvin, representative of Tanner & Hall, Ltd., 237 South Brand boulevard. No, it wasn't a young Buick.

Some 250 years ago children in England were sent to school with pipes in their satchels, and the schoolmaster called a halt in their duties while they all smoked.

ANNOUNCING THE OPENING OF
Jane's Country Inn
State Highway, La Crescenta, California
"Just a Touch of Quaintness"—You Are Offered

L. A. COMMUTATION FARE 10 CENTS, IS PREDICTED

Electric Service on Glendale Avenue to Result In New Rate, Is Claim

(Continued)

touched upon briefly by Mr. King, who mentioned the necessity of getting trains bound to and from San Francisco to stop at Glendale. He stated that the selection of this site rested primarily with the railroad committee and expressed a hope that the residents of the eastern portion of the city would endorse whatever selection is made ultimately. He intimated that the matter is likely to be settled in the near future.

The question of establishing a branch postoffice near the intersection of Broadway and Glendale avenue was brought up again for discussion.

"If there is no rush about it, we might arrange to get room in the new hotel," remarked C. E. Stanley of 108 North Everett street, chairman of the post office committee. "We have a man who is willing to put up a building for us."

Herman Nelson, secretary of the association, expressed an opinion that the time is most opportune to push the matter instead of waiting until the hotel is finished—and the elections are over.

Now In Mellow Mood

"Our representative at Washington is in a very mellow mood right now and he wants to do something for the people of the east side—I don't know why," laughed C. W. Ingledue of 530 E. Broadway, who presided as president of the Eastside Advancement Association.

C. F. Stuart, proprietor of the Glendale Pharmacy at 638 East Broadway, mentioned several available branch postoffice locations.

Mr. Stanley asserted that he had 860 names on petitions favoring the establishment of a branch postoffice and said he could easily have gotten more if he had not been informed from a reliable source that they would not be necessary.

Wives of Railroad Men on Strike Go to Work, Report

CHICAGO, July 21.—When the railway shopmen struck, their wives went to work.

Investigation today in the great shop centers at Burnside, South Chicago and Pullman revealed that in many cases the hand that rocks the cradle has been turned to the task of earning dollars.

Women who of necessity remain at home have inaugurated a rigid campaign of retrenchment.

"Stick by our men," is the community slogan.

Into the tall office buildings of Chicago hordes of these hardy, foreign-born women are going as scrub women, into the great union stockyards as meat packers and soap makers; into the laundries as wash women—into the factories of every description.

LILA M. SHEA AND RICHARD BERLIN ARE MARRIED

Elaborate Ceremony Takes Place at Bride's Home; 75 Guests Attend

At a home ceremony performed at 8:30 o'clock last night, Thursday, July 20, 1922, by Rev. Daniel Webster, at the Shea home at 1608 South Brand boulevard, Miss Lila Mary Shea, daughter of William Shea, became the bride of Richard Berlin of Deer Lodge, Mont., son of Mr. and Mrs. John Berlin of Wisconsin. Over seventy-five relatives and friends witnessed the ceremony and attended the reception following.

Quantities of Shasta daisies white lilies and greenery decorated the living room, where the bridal party stood during the reading of the marriage service.

Before the hour for the ceremony Mrs. Wayne Smith, accompanied by Mrs. Noble Ripley, pianist, sang "Because" (d'Hardlot), and "Still As Night" (Cadman). The wedding march was played by Douglas Bennett, a nephew of the bride.

Bridal Party

The first member of the bridal party to enter was Mrs. James Shea, matron of honor, gowned in orchid Canton crepe and carrying an arm bouquet of orchid dahlias. Following her was Miss Lila Webster, bride's maid, wearing jade Canton crepe. Her flowers were shell pink roses.

Little Billy Bennett, dressed in a Lord Fauntleroy suit carried the ring on a point lace medallion resting on a white satin pillow.

Miss Shea entered on the arm of her father. Her bridal gown was of white Canton crepe, worn with veil held by a bandeau of orange flowers and her bouquet was of bride's roses, lilies of the valley and maiden hair fern.

Miss Shea's brother, James Shea, attended Mr. Berlin as best man.

Go On Honeymoon

The reception following the ceremony was featured by the cutting of the bride's cake by Mrs. Berlin.

Late in the evening Mr. and Mrs. Berlin left for a short trip. For traveling Mrs. Berlin wore a sand colored sport suit with hat, gloves and shoes in harmonizing shades.

After visiting points of interest in Southern California Mr. and Mrs. Berlin will return for a visit with Glendale relatives before going to their future home at Deer Lodge, Mont., where Mr. Berlin is in business.

Mrs. Berlin has many friends in Glendale, where she attended grammar and high schools and the many pre-nuptial affairs complimenting her were indicative of her wide circle of friends and her popularity.

From Out of Town

Among the out of town guests at the wedding and reception were Mrs. D. A. Bennett and daughter Frances, John and Walton Haglund of Honolulu, Hawaiian Islands; Mr. and Mrs. Donald Bennett and family, Mrs. A. C. Arnold and daughter Gertrude, Misses Dorothy and Margaret Deifenbach, Theodore Deifenbach, George Ballenger and Mrs. F. M. Harris of Oxnard; Mr. and Mrs. J. S. Kier, Mr. and Mrs. William Clark, Mr. and Mrs. Butler of Pomona; Mr. and Mrs. Louis Bartlett and family, Mr. and Mrs. H. K. Hale and daughter Louise of Pasadena, and Mr. and Mrs. John Bartlett of Van Nuys.

Cost of Food Goes Higher, Announced

WASHINGTON, July 21.—While the country is beset with industrial troubles, the cost of food is steadily rising, according to figures made public by the labor department.

The retail cost of food to the average family for June increased 1 per cent over May and the increases were particularly marked in such staple necessities as meat, potatoes, beans and sugar.

Of the 43 articles on which prices are secured each month, 21 showed an increase. The more important increases were potatoes, 20 per cent; navy beans, 9 per cent; sugar, 8 per cent; sirloin steak, bacon and fresh eggs, 2 per cent.

Twelve articles decreeased in price during the month. The more important decreases were onions, 18 per cent; cabbage, 11 per cent; lamb, 3 per cent; pork chops and canned peas, 1 per cent.

Great Forward Step Toward Peace, Claim

WASHINGTON, July 21.—The protocol signed today at the final session of the Tacna-Arica conference was declared by Secretary of State Hughes to be "the greatest forward step in the interest of peace of this hemisphere which this generation has witnessed."

Addressing the Chilean and Peruvian delegates to the conference and a distinguished diplomatic gathering, Hughes said:

"I believe this to be the dawn of a new day in Latin-America. It points to a new era of peace and prosperity, in which friendship may be cultivated and mutual interests may be safeguarded."

The delegates were brought to Washington at the invitation of President Harding three weeks ago and had just affixed their signatures to the agreement ending the long-standing boundary dispute between Chile and Peru.

"It is vindication of the processes of peace," said the secretary. "It is easy to talk of the prevention of war but inevitably there will be differences and serious controversies and if these are not to be settled by force, there must be peaceful solutions which can be had only through the efforts of governments which determinedly seek peace and make it possible by providing for the contracts of honorable and reasonable men whose ability, ingenuity and wisdom will be utilized, not to devise grounds for continuing differences but practical bases of agreement."

He declared that the amicable adjustment reached was "the healing which gives promise of better relations throughout Latin-America and of the promotion of the growth of sound opinion."

William Allen White Ready to Be Arrested

EMPORIA, Kan., July 21. — William Allen White, author and editor, was ready to be arrested by the orders of his close friend, Governor Henry J. Allen, today.

The railroad strike placard which White flaunted in the show window of his newspaper—the Emporia Gazette—in alleged violation of a Kansas industrial court ruling, was still there and the editor asserted he would not "strike his colors."

It was learned from Topeka that Attorney-General Richard J. Hopkins was preparing the necessary papers and that a warrant might be sent here for service on White today.

Under the Kansas industrial law, a strike in an essential industry is illegal in the state. Placards expressing sympathy with such a strike, under the interpretation of the law, constitutes an unlawful act, according to the attorney-general.

White defends his action under the right of free press and free speech and signified that he was ready to test the case.

Moore for Senator Club Is Completed

Local Republicans met last night at the high school auditorium and completed the formation of the Glendale Moore-for-Senator club, W. E. Evans calling the meeting to order. Following the selecting of W. D. Root for temporary secretary, the chair appointed Thomas D. Watson, John Robert White and Judge F. H. Lowe as a nominating committee.

During the recess in which the nominating committee adjourned to an adjoining room the following made brief talks: J. C. Sherer, Mrs. Ella Richardson, S. C. Packer, Mrs. S. C. Packer, C. C. Stevenson, W. D. Root and Dr. Jessie Russell.

The report of the nominating committee follows:

President, Spencer Robinson; first vice-president, Mrs. Ella Richardson; second vice-presidents, Judge F. H. Lowe, J. C. Sherer, W. E. Evans, Dr. Jessie Russell, V. M. Hollister, Mrs. S. C. Packer, John R. White and Thomas D. Watson; secretary, W. D. Root; treasurer, Dan Campbell; chairman of publicity, H. M. Butts; board of directors, C. C. Stephenson, Robert Plume, Mrs. A. H. Montgomery, R. L. McCourt and Peter L. Ferry.

The remainder of the session was in charge of Mrs. Ella Richardson, vice-president elect, due to the absence of President Spencer Robinson. Prior to adjournment it was announced that a meeting of the executive committee, which includes the entire personnel of officers in addition to the board of directors, will be held on Monday night at the home of Mrs. Richardson at 317 North Brand boulevard.

Jovial Deputy Sheriff Victim of Slickers

CHICAGO, July 21.—True W. Fogg, portly and jovial deputy sheriff of Los Angeles county, California, is on his way to Lynn, Mass., today with his own ideas about Chicago "slickers." He stopped off between trains yesterday and was shaved in a barber shop. Later he reported the loss of a check for $2400 and a $100 bill. Two barbers and a porter were questioned, but later released.

Lumbering Rushing In Northern Woods

Mr. and Mrs. Chester L. Beard of Everett, Wash., were visitors in Glendale yesterday, calling on Frank H. Pilling, secretary of the Glendale Merchants' association, who held a similar position in the northern city.

Mr. Beard is paymaster for the Weverhauser Lumber Mills at Everett and states they are now employing 865 men, the largest number in their history and that the industry is going at full speed on account of the great demands now being made by home builders.

SEWER PIPE BIDS BEING MADE BY LOCAL FIRM

Tropico Potteries Doubling Capacity of Department to Handle Business

The Tropico Potteries are now doubling the capacity of their sewer pipe department in the hope of obtaining the $14,000,000 contract for the construction of the Los Angeles outfall sewer system.

The company recently acquired the exclusive right to sell and manufacture in California, Arizona and New Mexico a form of segmented sewer pipe patented by W. C. Ferguson of St. Louis. Hollow tile blocks are fitted together to form the exterior of the pipe. The inner surface is formed by tile segments which fit into and overlap the cracks in the outer blocks.

Mortar used in sewer pipe lines has a tendency to become brittle plaster of paris under the action of sewer gas. The new system of laying pipe uses much less mortar and that is protected by asphalt. For this reason, it is believed that the new segmented pipe will prove very practical and durable for big jobs requiring large pipe lines.

Believes Chances Good

F. M. Davids, general manager of the Tropico Potteries, believes that his company has a good chance for consideration when bids are awarded for the Los Angeles outfall sewer system.

Santa Ana and Anaheim have floated a bond issue for $500,000 and are planning a joint outfall sewer line about five miles long. Engineers from these two cities have taken a trip to St. Louis at the expense of their municipalities to investigate the practicability of the segmented sewer pipe. If their report is satisfactory, the contract for the manufacture of the pipe will be given to the Tropico Potteries.

Many of the cities of southern California are either laying entire sewer systems or making extensive additions. The city of East San Diego has just installed 200,000 feet of pipe. Culver City, Watts and Burbank are among the cities planning complete systems. While plans for the Glendale system have been sidetracked temporarily, 25,000 feet of lateral sewers are to be laid soon in the Verdugo Woodlands.

Cities Making Plans

Another outfall sewer system is being planned by Pasadena, Alhambra and South Pasadena. This will be a big contract and the local company is hopeful of obtaining it. However, the big difficulty seems not to be securing orders but in turning out its products fast enough to meet the demand.

"We are now turning out approximately 900 tons of sewer pipe a month in all sizes of pipe and fittings," asserted Mr. Davids. "Our present press is capable of turning out 5500 pieces of four-inch pipe or 11,000 feet in a working day of nine hours.

"We are planning to double the production of the sewer pipe department," he continued. "We already have the machinery on the ground and most of it installed. All of it will be ready to start running before the last of the month."

The additional machinery includes a complete duplicate set for the sewer pipe department. First the clay must be mixed in an immense drying pan, then mixed in a huge pug mill and finally sent through a powerful stamping press.

Increase in Capacity

"We intend also to enlarge our kiln capacity," asserted Mr. Davids. "We have just completed two kilns and have two more in progress. We propose during the next two or three months to build four more. All of them are 32 feet in diameter and each holds about forty tons of sewer pipe."

A new building to accommodate the drying department is contemplated before the year is over. This section of the plant usually has a stock of sewer pipe on hand worth about $75,000.

The plant of the Tropico Potteries which is valued at $850,000, occupies a site of 37 acres just south of the Southern Pacific tracks at Los Feliz Road. While it is technically in the city of Los Angeles many of its 200 employes live in Glendale and do their shopping here. In 1918 its payroll amounted to about $6000 a month. This is now $20,000 a month and will be $5000 more before the end of the year.

The new company, which bought out the Pacific Mills & Chemical company January 1, 1921, has just been refinanced. Five Hundred thousands dollars' worth of bonds, which were on the market at 8 per cent interest, were recalled and $400,000 worth of bonds were issued at 7 per cent interest.

"We cut our bonded indebtedness $100,000 and reduced the rate of interest," declared Mr. Davids. "These bonds are all sold. This shows the progress that we have made in the past year and a half."

Sees Two Causes for Coal, Rail Strikes

WASHINGTON, July 21.—The industrial disturbances which have culminated in the coal and railroad strikes were declared by Senator David I. Walsh, Democrat, of Massachusetts, to be due to two causes.

First—The disposition of certain employers to destroy unionism.

Second—The attempt of certain employers, with governmental encouragement, to deflate wages and bring down production costs.

Walsh, a member of the senate labor committee, declared these employers "are unwilling to make any compromise which involves recognition of organized labor" and "this prevents the employer and employe from getting together."

"Labor is objecting to cuts in wages unless the cost of living is cut correspondingly," continued Walsh.

GETTING MEN BACK AGAIN TO WORK BIG PROBLEM

Six Months Ago Unemployed Was Question; Now It's Employed on Strike

By J. E. JONES

Special to The Evening News

WASHINGTON, July 21.—Six months ago the United States government was pushing plans and schemes in every part of the country to get jobs for the unemployed. The problem today is to get the unemployed back to work. Somewhere between a million and a million and a half men have been on strike. Very few of them have faced privations for themselves or families; but they have struck just the same.

For years the railroad workmen strove to perfect their unions and to secure the recognition of the federal government. It will be recalled that on several occasions former President Wilson intervened to prevent railroad strikes. In those days the unions were but partially organized, and when the executive threw his power into the balance, the railroad managers complained most bitterly about the "interference." These rail disputes had more to do with developing government "control" than anything else. The transportation act recognized the new conditions that had been a long time in forming, and with this act there was created the railroad labor board. The board was made up of representatives of the employers, the employes, and the public. It furnished a tribunal for the settlement of wage differences as well as conditions governing and affecting employment. Practically every time this board has rendered a decision its terms have been disputed. When the railroad operators were dissatisfied they sought to nullify the acts of the board. In this, however, they used a good deal of care and avoided open conflict with the authority of the board. But the union leaders were not so discreet, and they learned only when President Harding issued his proclamation declaring that "the maintained supremacy of the law is the first obligation of the government and all the citizenship of the country," that they had carried the perverseness of their human nature to a point where they had placed themselves in open opposition to the national administration.

Defying Government

Aaron Burr was arrested for treason because he ignored the policies of the government when he started out with the idea of conquering Mexico. Burr got out of it, but his troubles served to warn others, and now whenever Americans want to upset the Mexican situation they do it more craftily and keep within the pale of the law. Defying the government is a bum policy—to which statement even Eugene V. Debs and a lot of other misguided gentlemen will—or ought to subscribe.

Of course there was nothing treasonable about the strike of the shop craft employes. Neither is the contract system of shop work with outside agencies a crime. But President Harding in his proclamation points out that the railroad operators and the railroad employes have in these specific instances defied the orders of the railroad labor board, and that in so doing they have also defied the government.

The issue was made clear-out by the president, and in defining the situation in his proclamation he had the advantage of finding the employers and the employes equally to blame, inasmuch as both sides had attempted to annul the rights of the public.

'Public' Is Real Boss

The public interest jumped distinctly into first place when President Harding issued his proclamation concerning the railroad situation. By it he pointed out very clearly that the decisions of the government, as the arbitrator of differences in railroad management and operation must not be lightly cast aside. A few stubborn railroad operators and a few pugnacious labor leaders were faced with a new situation when they found the president challenging their right and good faith in defying the railroad labor board. The board itself has no power to make its decisions mandatory. But public opinion can do that little trick, just as it did in sustaining the supreme court in its earliest days, even when men like Thomas Jefferson, as president of the United States, attempted to tell Chief Justice John Marshall to "go way back and sit down."

The president has the best of any controversy when he shows that the "intent of the law" is to prevent just such interruptions in the mail service and the flow of interstate commerce as had been occasioned by the latest strike. And when he adds that the operation of the railroads is necessary to "preserve the public peace and to facilitate those operations in safety which are essential to life and liberty, and the security of property and our common public welfare," he is talking language that all can understand.

It needed something dramatic like this to demonstrate conclusively that in the new triangle that is to rule with reason the transportation affairs of the country, that in the final analysis the public is the real boss.

United Mine Workers Issue Grave Warning

WASHINGTON, July 21.—A warning against the operation of coal mines by "strike breakers and inexperienced workers" was issued here by the United Mine Workers of America.

"Since 1900 there have been at least twelve mining accidents in each of which 100 or more mine workers have been killed," said the miners' statement. "And hundreds of other accidents occur each year in which one or more miners are killed.

"What would be the toll of dead and injured if the mines were worked with inexperienced strike-breakers?"

The Babylonians preserved the bones of their dead in coffin-shaped jars.

Red Cross Plans to Spend Two Millions

WASHINGTON.—Work for disabled ex-service men and women and their families will cost American Red Cross National Headquarters $2,778,404 for the fiscal year, according to the tentative budget figures agreed upon today at a meeting of the executive committee. This is an increase of $166,404 over the year just ending.

Two Girls First to Climb High Peak

CRESTONE, Colo. — Lucretia Vaille and her cousin Agnes Vaille of Denver, members of the Colorado Mountain Club, have succeeded in climbing Crestone peak from the west side. This is the first time this peak has been scaled from the west side. The young women gained the top only after several hours of arduous effort. A misstep at many times would have resulted in a plunge to almost certain death.

The crest from which this peak derives its name is a sheer wall on the west for at least 1000 feet. Crevices and small ledges furnished the climbers footholds by which they reached the summit, 14,333 feet above sea level.

Kidnaped for Third Time, Man Declares

LOS ANGELES, July 21.—Kidnapping R. J. Friend, 20, attendant at an oil station at Avenue 20 and Dayton avenue after robbing their victim, four bandits operating in a roadster, carried the filling station attendant to a deserted spot on the Whittier boulevard, according to a report filed at the central police station. Friend has been kidnapped twice before by bandits, according to police records. The bandit victim said he was robbed of $15.

TURN HAIR DARK WITH SAGE TEA

If Mixed With Sulphur It Darkens So Naturally Nobody Can Tell

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that abundance which is so attractive, soft lustre and appearance of —Advertisement.

Governor William D. Stephens

In Announcing His Candidacy, SAYS:

More vital to the state or the nation than the personal aspirations of any man, is the maintenance of a system of government consonant with the ideals and interests of the people.

HITS REACTIONARIES

Realizing that, because of reactionary activities, a change of administration at this time would mean a complete change in the character of government that this state has endorsed and ratified on many occasions, I hereby submit my candidacy for re-election as governor of the State of California.

The greatest good to the greatest number, the maintenance of law and order, and the progressive development of the human and material interests of the state have been the guiding principles of my administration of the state's affairs, and of the legislation that I have approved.

This has been evidenced in our agricultural progress, in our educational expansion, in our extension of child welfare work, in our anti-alien legislation, in our highway development, in our soldier welfare program, in our legislative support of national constitutional prohibition, in our equalization of taxes to the end that public service corporations should pay their just proportion in harmony with the demands of our state constitution, in our increased efficiency and through administration reorganization and consolidation, and in other measures, upon which I am prepared to stand, as an evidence of good faith and a guaranty of the continuation of progressive policies in this state.

POINTS TO EXPENSES

Notwithstanding the greatest increase in the cost of living that the nation has ever experienced, our state expenditures have been held to a strictly conservative basis in all our normal administration functions. Only in the educational and constructive activities has there been any marked increase, and the larger part of this advance was necessitated by the direct vote of the people, whose right it is to determine how much money shall be used and for what purpose.

Even including these expanding activities, California's state government has increased its expenses less proportionately than any other big business within the state, and this increase has gone into developments which are vital to our future economic and business welfare.

In California after the war, reactionary interests sought to control the legislature and to weaken the administration, by a subtle and organized movement, which was as dangerous to the economic welfare and democratic government of our people as any corporate control that was ever exercised in the history of the state, but fortunately in battling against these forces the people were victorious.

GAUNTLET THROWN DOWN

I am fully aware that these selfish interests have thrown down the gauntlet in the coming election, and I feel called upon to fight again for the maintenance of government for the people, by the people.

The state's future is bright with promise. The rapidity of our progress and the safety of our institutions demand a government in which are combined a courage to meet reactionary propaganda, and understanding of economic conditions, a cautious attitude toward increasing expenditures, a practical sympathy for the human welfare of our people and a constructive policy of state development.

To meet these demands I pledge my best endeavors.

WILLIAM D. STEPHENS.

Primary Election August 29

To vote you must register prior to July 29th

Campaign Headquarters, 517 West Sixth Street, Los Angeles, on the ground floor of the Pacific Mutual Building.

"TIMES JUNIOR"

A Newspaper for Little Folks

—New 8-page Children's Supplement—
Tabloid Size—for the Sunday Times

—Mechanical Cut-outs—Magic Tricks—Games for Boys and Girls—Puzzle Page—Pictures to Color—"Dickey Dog Cartoons"—Famous Ink Bottle Animal Series—Tool Craft—"Wonderful Stories of Oz" by J. Frank Baum —Latest Children's News.

—In short, a complete miniature newspaper, packed with wholesome fun—highest paid children's specialists, writers, artists and educators, in the world.

—Every child will want to see the opening number. Order in advance from news dealers.

First Issue Will Appear in Next Sunday's

Los Angeles Times

Next Sunday's TIMES, in addition to new children's supplement, will contain the enlarged TIMES Illustrated Magazine, new feature pages by local literary celebrities—rotogravure picture section—4-page colored comic—pink automobile section—separately-bound Farm and Tractor Magazine—real estate and development section—dramatics—sports—society—book pages—enlarged cable service—hundreds of exclusive advertising announcements by business firms of Southern California. All told, a mammoth edition of approximately 200 pages, making the largest newspaper in the world. Price 10c. (Sunday and daily TIMES by carrier, 90c per month.)

"The Line Is Busy"

When the telephone operator tells you "the line is busy," this fact has been made known to her by an electric signal. With the thousands of calls in daily telephone traffic, if the operator, to secure this information, were compelled to listen on the line of the party called, prompt service would be out of the question.

This delay is eliminated by an electric device which in the fraction of a second automatically indicates that the line called for is in use.

When "busy" reports are repeated on successive calls for the same number, it is generally due to an immoderate use of the called line. The length of a telephone conversation is obviously beyond the control of the telephone operator. Have confidence in her when she makes the report "the line is busy."

The Pacific Telephone And Telegraph Company

STANDARD OIL IN GAS MONOPOLY, CHARGE MADE

Trade Commission's Recommendations Submitted; 'No Farming Trust'

By U. S. Press Association

WASHINGTON, July 21.—Asserting that a "monopolistic situation" with respect to the gasoline market prevails over the entire country due to the fact that an interlocking stock ownership in the several Standard Oil companies "has perpetuated the very monopolistic control which the court sought to terminate," the Federal Trade Commission recommends in a report to congress the enactment of legislation prohibiting "common stock ownership in corporations which have been members of a combination dissolved under the Sherman law."

The commission reported that although the prices of high-grade crude petroleum were lower in Montana and Wyoming than in any other crude producing state, the refinery prices of gasoline and kerosene were "much higher than at midcontinent refineries." More than 90 per cent of the gasoline and kerosene refined in the entire Rocky mountain territory, the report said, is produced by the Midwest Refining company, which was said to be owned by the Standard Oil company of Indiana.

Standard Has Monopoly

"The unsatisfactory situation in Montana and adjacent Rocky mountain states," says the report of the Federal Trade Commission, "is evidently due to the fact that the oil trade in this region is practically monopolized by Standard Oil interests. This monopolistic position was perfected in 1920 and 1921, when the Standard Oil company of Indiana secured control of the Midwest Refining company and acquired a one-half interest in the Sinclair Pipe Line company and the Sinclair Crude Oil Purchasing company.

"Sinclair interests have recently obtained important leases in the Teapot Dome of the Salt creek field in Wyoming. Standard companies now dominate every branch of the petroleum business of the entire Rocky mountain region."

"The entire country," the report asserted, "is divided into eleven Standard gasoline marketing territories in which a Standard marketing company is the dominating factor and in which there is no real competition between the various Standard units." The commission expresses the opinion that the situation can not be effectually remedied by existing law and recommends that adequate relief can only be secured through additional legislation.

No Farming Monopoly

"Monopolistic control of the production of farm products can not exist in this country," says Dr. H. C. Taylor, chief of the bureau of agricultural economics, United States Department of Agriculture. "Even if farmers were willing to submit to central control regarding the quantity of crops to be planted, nature is so dominant a factor in determining the supply of food in any given year, that control of production is out of the question."

In discussing the cooperative marketing movement, Dr. Taylor said he was thoroughly convinced that "just to the extent that price fixing as an objective in cooperative marketing is kept in a dominant motive on the part of farmers in entering cooperative organizations, the movement is doomed to fail. Successful cooperation must be based upon efficient service to the public at a fair price."

Consumes Most Rubber

Big as the growth of world production has been, says the Trade Record of The National City Bank of New York, the increase in our importation and consumption has been equally great. World production in 1913 was 108,000 tons and in 1921 approximately 400,000 tons or about four times as much in 1921 as in the year before the war, while the quantity imported into the United States in the fiscal year 1922 is five times as much as in 1913. World rubber production since 1913 has aggregated 4,800,000,000 pounds, while our own importations in the same period have aggregated 3,140,000,000 pounds or 65 per cent of world production during the eight years in which the rubber plantations of the Orient have been astonishing the world with their unexpectedly great outturn, which has brought prices to a point far below those before the plantations came into active operation.

Automobile Lights

In cooperation with the various states, the bureau of standards is investigating the proper illumination of registration plates on automobiles and the efficiency of various forms of tail lights. The general subject of color, position, etc., of tail lights is now receiving considerable attention throughout the country. The bureau is also engaged on work covering automobile headlights with the idea of aiding in the unification of state laws governing these appliances.

CHOKE COIL COUPLING FOR RADIO FREQUENCY AMPLIFICATION

When oscillating potentials are applied to the grid of a vacuum tube there will be oscillating current in the plate circuit. The plate circuit oscillations are, of course, superimposed on the steady current, which flows when no oscillatory potentials are applied to the grid. If the normal potential of the grid is adjusted, with respect to the lowest potential point of the filament, so that no grid current can flow while signals are received, the plate current variations are not distorted. In the figure an air core radio frequency choke coil is seen to be connected in the plate circuit. Whenever the current through this coil rises and falls a counter electromotive force of self-induction is set up. This counter electromotive force is in opposition to the electromotive force causing the plate current variations. It is, therefore, in opposition to the potential variations applied to the grid potential variations multiplied by a factor called the "amplification factor" of the tube. The potential variations at the coil terminals are amplifications of the potentials applied to the grid, and the result is voltage amplification.

These potential variations may be applied to the grid circuit of a second radio frequency amplifying tube or they may be applied to a detector circuit. There is no stepping up of voltage in the coil since the turns ratio is one to one. The coupling coil should have a rather large inductance. As a matter of fact, the coil, even though it may be only a single layer of wire, has distributed capacity. This distributed capacity, together with the inductance, make the coil itself an oscillatory circuit, in effect, and the condition for maximum amplification is the same as for the tuned circuit coupling described in the last article. That is, amplification will be maximum when the signal frequency is the same as the natural frequency of oscillation of the coil. The tube capacity, capacity between plate and filament electrodes, also plays a part in this, so that the effect would diffet with different tubes.

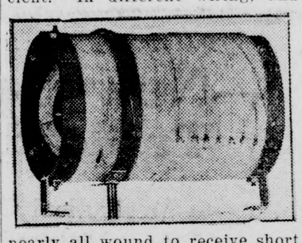
Tubes may be connected in cascade with choke coil coupling just as with any other form, but the grid leak resistance must be connected as shown, rather than across the grid condenser, so as to avoid a high voltage being placed upon the grid. The grid leak resistance is necessary to prevent blocking of the tubes when the potential on their grids becomes very negative.

APPARATUS AND DEVICES

By RALPH BROWN, RADIO ENGINEER

VARIOMETER NOT NEEDED ON THIS COUPLER

Couplers again. There are more than Heinz's fifty-seven varieties and the majority are very efficient. In different wiring, and



nearly all wound to receive short waves, it is a pleasure to see a development that covers a range of 150 to 3000 meters and does it effectively. This coupler combines both bank and flat windings with tapped off portions for various wave lengths.

The construction is sturdy, and good material is used, both for the rotor and stator tubes. The standard fitting is made use of for the arm rotating the stator, and same projects to a suitable length, so that a dial may be fitted to it on the receiver panel. On either end of the stator curved elbows, which are drilled, are furnished, so that the entire device is firmly anchored to the rear of the panel to be used.

The special type of windings and the tapped inductances, eliminate the use of variometer, vario couplers and, last but not least, that bugbear of short wave sets, the loading coal. The entire wave range is covered very well and with good selectivity.

Side Talks by Ruth Cameron

NO MORE, NO LESS

We do what we have to do.

Sometimes, if it is a very big task, we break down doing it; sometimes we fail; sometimes we kill ourselves by overwork. But far more often we do what we have to do. No more, no less.

Something recently called to my mind a summer some years ago when I had half the conveniences I have today, much less service and much more to do. "How did I ever do it?" I marvelled. "I don't see how I managed. I don't believe I could do it today."

I said as much to a friend, and she said: "Oh, yes, you could if you had to. It's only because you don't have to do so much that you think you can't. I've had hard times in my life and easy times and hard again and I've found that I could almost always do what I had to do."

She Did Stand It

It's true, isn't it?

And it's true of other things than work. What we have to bear we can bear.

I once heard a woman say in speaking of another woman whose husband had been grossly unfaithful to her: "That's the one thing I couldn't stand. I know it would kill me. Anything in the world but that."

That was some years ago. She was wrong. She could stand it. She has stood it and has come out of that fiery ordeal with a new sweetness and sympathy and strength of character.

What we have to do we can do and what we have to bear we can bear. No more, no less.

When We Get Up

And the no more is just as true as the no less.

If you have to get up at 6 o'clock in the morning you get up then. If you don't have to get up until 8 o'clock you get up then. And if you are used to getting up at 8 you find you don't like to get up at 7 any more than the person who gets up at 6 likes to get up at 5.

So it is with many of the demands that life makes on us. We don't like some of them at first but we can and do adjust ourselves to most of them. And if life makes few demands we are apt to make but little response.

A Little Comfort?

It's like working for an easy or a hard taskmaster. As a newspaper woman I once worked for an editor who was very strict and I did for him the best work I was capable of. And then I worked for an editor who was very easy with me, and ashamed as I am to say it, I grew sloppy in my work.

Isn't it a little comfort when life seems a hard task-master to know that it is forcing you to give the best you have in service and accomplishment and in character development?

Tomorrow—A Foolish Invitation.

MOST PICTURESQUE KIDDIES

Big brother takes his little sisters to church. A very interesting photo made on the banks of the Zuyder Zee, Holland, that center of windmills and wooden shoes.

They Say That

MAY HAVE A PANIC

Isaac F. Marcosson, who has spent five months in Japan, says "Japan is marching toward a serious economi cerisis in which a panic is among the near possibilities. Japan's whole naval program was beyond her fiscal resources and the Washington conference really saved her from national bankruptcy." Keep this in mind and you will find it easy to interpret future political news from the Orient.

NOMINATE "DEAD" MAN

Officially dead for 4 years, Lieutenant James Hanbery, Omaha newspaper man, was nominated by his Nebraska buddies for senior vice-commander of the Disabled Veterans of the World War. At Chateau Thierry 4 years ago Hanbery received wounds which caused him to be reported dead by the War Department. Some people can be just as stubborn as the War Department.

WEALTH DOESN'T AGREE

A new teacher in Chicago's gold coast section is trying to make her pupils forget they are rich children. The instruction consists of competitive games, the prizes being nickel bean bags and penny suckers. The millionaire pupils laugh with delight at the receipt of a bean bag they have won, when they would be bored by more expensive toys with which their parents formerly showered them. Poor folks' children are more to be envied than those of the rich, as, on the whole, their childhood is happiest and less artificial. The simple life is the best life for young or old, but humanity is a long time learning that it is.

HAVE BEEN OTHERS

The woman candidate for senator in Nevada follows a circus across the state and talks to the crowds. There have been "ring" candidates before.

RAZOR STROP

A patent has been granted for a razor strop made of hair from horses' tails bunched and fastened together at the ends.

RAISING SUGAR

Nicaragua now is raising sugar cane on from 10,000 to 12,000 acres of land.

HYDRO-ELECTRIC PLANT

A hydro-electric plant in Ceylon that will utilize water falling 2000 feet eventually expects to develop 100,000 horsepower.

GEOLOGICAL EXPLORATION

The British government has given an American oil company permission to make geological explorations in Palestine.

BEAUTY CHATS

by EDNA KENT FORBES

COMPLEXION SOAPS

Readers are always interested in special soaps for the complexion. Many of them are even ambitious enough to wish to make some for themselves, but soap, like face powder, is difficult to make and usually more satisfactory if purchased ready-made. The basis of most good toilet soaps is usually a mirture of eight or nine parts suet and one part olive oil made "soapy" by caustic soda.

Another way is to mix good quality white curd soap which is made from suet with the same amount of white castile soap made from olive oil. A very fine almond soap I know of is made with one-seventh castile soap and six-sevenths white curd perfumed with oil of almonds in the proportion of one ounce of oil to every four and a half pounds of soap. This soap (and all others) is made by shaving and melting the ingredients until they are just hot enough to blend. If the ingredients are new no water is needed, if the ingredients are old a little may be required.

Personally I would recommend the best quality green or white castile soap for the face and hands. Curd soap is cheaper if you must take expense into account. I do not think it is so good but it is preferable to the ordinary cheap soap which is full of alkali or strong soda.

Oatmeal soap is excellent for the complexion and not expensive to purchase. Unfortunately there are so-called oatmeal soaps on the market which are nothing but cheap quality soap with a small proportion of the meal. If you cannot find a good quality it is wiser to follow my suggestion given the other day, which was to keep small bags of the meal in the bathroom and squeeze them into the water, using castile or palm soap.

Blue Eyed Betty—The only way to thin out a head of hair that is too heavy, is to have strands cut out of it here and there over the whole scalp. It should be done carefully or the bared places will show when the hair is dressed.

Tan and the lighter freckles will bleach off if you use the juices of cucumbers or that of lemons.

Margie—The white spots on nails come from any one of a half dozen causes. They are not considered disfiguring, however, so

Castle soap is good for the skin

need not be treated. If, though, you feel that you must get rid of them, cover the nails with a mixture of myrrh and pitch, half and half, and remove this paste after some hours with olive oil.

Tomorrow—Exercises to Reduce

All inquiries addressed to Miss Forbes in care of the "Beauty Chats" department will be answered in these columns in their turn. This requires considerable time, however, owing to the great number received. So if a personal or quicker reply is desired, a stamped and self-addressed envelope must be enclosed with the question—The Editor.

U. S. Sympathetic to Operators, Is Claim

BLACKPOOL, England, July 21.—William Mitch and John Gay, American delegates to the miners conference in session here charged that the United States government was "sympathetic" toward the coal operators.

Diet and Health

By Lulu Hunt Peters, M.D.

Author of "Diet and Health, with Key to the Calories"

SPIRITUALITY VS MATERIALITY

TWO-THIRDS SHRUNK

You have been on a liquid diet for two days now. You have had skim milk or buttermilk or fruit juice or any other liquid not totaling more than 100 C. a glass, six glasses during the day. If you have not been able to get fresh milk, perhaps you got the skim milk or the whole milk powder, or perhaps canned milk, and you have made it up according to directions on the can.

Fresh milk is 20 C. to the ounce, skim or buttermilk is half that or 10 C. (because there is no fat in them), and fruit juice is about 15 C. to the ounce.

How do you feel—it's not so terrible, is it? Wait until you get on the scale after the third day!

You will lose from five to ten pounds after three days of a liquid diet which does not total over 500 to 600 C. a day. A great loss to sustain, but I don't see you offering any reward for the return!

Remember what I told you about weighing on the same scales, in the same weight clothes, and at the same time in relation to eating and elimination.

While we are on the question of elimination, let me tell you that you may be constipated. Don't worry about it. There's too much worry anyway about constipation. You may take an enema, or some mild cathartic if you feel happier. We will discuss constipation later.

The elimination of the water from your system—a lot that was retained before to dilute the poisons in the tissue, fluids and blood as the result of too much food, plus the liquid you are taking for nutriment, plus the free water drinking—all this liquid eliminated, will be a plenty. Don't worry about it. Just keep within running distance of a comfort station.

Some of my devotees have thought they were having kidney trouble because of this very free elimination. But that is not a symptom of kidney disease anyway, and certainly not when one is on a liquid diet.

One more day of the shrinking-stomach - low - calorie - liquid-diet period, then for some of the most delicious food you have ever tasted.

Please fill out the following form blank and send it in. **We will never use your name without your consent.** We want this information only for scientific data compilation, and it will help you to keep your resolutions to reduce and thus improve your health, efficiency and happiness AND LOOKS.

Wouldn't it be terrible!
Oh, kind Fate, spare us, please—
What a disgrace to the nation
If Laddie Boy should have fleas!

YES—QUITE OFTEN

When they say "her dress was a sensation" they generally mean the lack of it.

THIS NEVER HAPPENED

The judge had fainted and the courtroom was in an uproar.

"Wassa matter? Wassa matter?" cried an attendant rushing up.

"That motorist admitted he was hitting sixty miles an hour and the accident was all his fault. The judge couldn't stand the shock," replied the prosecuting attorney.

Case Against Movie Actor Set for Trial

LOS ANGELES, July 21.—Indicating the $200,000 damage suit brought by Dorothy Clark Elms, pretty stage dancer, against Herbert Rawlinson, well-known film actor, will be pushed, the case was set for trial by Judge Willis for January 22, 1923, in Judge Myers' department of the superior court.

After the action was instituted there were persistent rumors that it would be dropped and the plaintiff herself was quoted from Boston as stating that the suit was brought by her mother, acing as her guardian against her will.

Crack Detroit Train Wrecked; Eight Hurt

AMERICUS, Ga., July 21. — The Southland, crack train from Detroit and Chicago, to Tampa, was wrecked between Smithville and Adams, Ga., on the Central of Georgia's tracks, when it struck a broken rail. Eight passengers were injured, none fatally, it is believed. Three steel cars left the tracks and turned over.

Blowing white dust down mine tunnels to increase the illumination is the latest scientific aid against "miners' blindness."

You CAN Save--- Do You?

If your income averaged $1200 per year you would probably be able to live on that comfortably. If your income increased to $1600 per year that would probably seem a bare sufficiency. But what has become of the extra $400? If you can live on $1200 per year you can save money on $1600 per year.

DO YOU DO IT?

The man who has a definite plan of saving a certain portion of his earnings is the man who will be able to take advantage of business opportunities when they offer. His savings will then be available for a far better purpose than mere high living.

We pay 4% interest on savings.

Parents Cause Poor Morals, Says Reformer

ST. LOUIS, Mo.—Lack of parental supervision is much to blame for the degrading state into which the morals of the young girls and boys of today are slipping.

Taking sides with Dr. Wilbur F. Crafts, superintendent of the International Reform Bureau, on the subject, Mrs. Theresa Baldwin, policewoman, comes forward to ask:

"Where is a girl's mother all the while her daughter is attending dance halls where she must associate with immoral minds of both sexes?"

A school for delinquent parents is suggested by Mrs. Baldwin, who has made a study of the dance hall situation along with several other policewomen in this city. She has to say on this subject:

"At a public dance to which several policewomen were sent, conduct was such as to justify the most shocking statements on the subject. You'd think we'd be pretty much hardened to anything, but the behavior and conversation of those young people was so shocking that we could hardly make up our minds to stay and see it through.

"Young girls—mere children—crave excitement, and the automobile supplies it in the most attractive form. Then follows the drinking of liquor and staying out all hours, and the child is brought in by the mother when the damage is done. One little girl of eleven was found last week the victim of an automobile escapade."

Wifie Likes Snakes; Hubby Gets Divorce

AKRON, Ohio.—Declaring that "no man should be required to live with a snake charmer, if it is not agreeable to him," Common Pleas Judge H. C. Spicer issued a decree granting the request of Walter Albright, of Akron, for a divorce from Rachel Albright, now of Saint Clairsville. The wedding took place in April, 1918.

"That's enough," said Judge Spicer, picking up his pen to sign the decree, when a witness testified that Mrs. Albright "had short skirts around her knees and long snakes around her neck" when she emerged from a snake pit at a recreation park here in 1918 while her husband was serving in the army.

Twenty Dollar Bill Found in Bird Nest

SHADYSIDE, Ohio. — A big windstorm dislodged a bird's nest from a rambler rose bush in the yard at the home of Michael Mochary.

The nest, abandoned some time ago by a reed bird, contained a $20 bill, pages from a Bible and parts of postal money orders from Cleveland, Kenwood, Freeport, Powhatan and Canton, Ohio; Wheeling, W. Va.; Danti, Va.; Gary, Ind., and Winslow, Ariz.

Mochary expressed belief that the articles might have been placed in the bush by thieves who failed to return for them.

BREAKWATER URGED

Agitation for construction of a breakwater has been revived at Santa Barbara and the project will be submitted as a special tax or bond proposition at a special election early in June, according to plans of the promoters of the scheme. Both an outlet harbor and an inner harbor are advocated, the latter to be made by dredging a salt marsh and slough.

CHINA NOW FACES POORHOUSE FROM MILITARY ORGY

Country Must Pay for Many Things in Next Few Years; Many Suffer

PEKING, July 21.—Just one definite result is apparent after China's annual political and military orgy.

China is poorer.

As thoroughly as gunpowder, political intrigue and public wastefulness can do it, the country has been driven one step and almost the last step, toward large foreign loans and consequent financial supervision.

Other results, and among them some good ones, there may be, but they are not now apparent.

The period of fear preceding the war, the ten days of actual warfare and the recovery period took a solid month out of China's producing year. Merchants in that period refused to ship goods for fear trains would be seized by soldiers. Then the roads were cut by armies and even the cheaper commodities were not transported locally. Money was withdrawn from banks and secreted and stocks of merchandise in the war area were hidden. Cutting of telegraph lines paralyzed business throughout the country. Food became expensive.

Both Suffered

Government and people suffered alike, for China's great income for administrative purposes is from the railroads and telegraphs.

The country comes out of the so-called war in a weakened condition to take up the task of self-restoration. For this work there is not a dollar in the treasury, nor is there likely to be. All the dollars that will come in for many years are pledged for debts contracted by wasteful administrations.

A large foreign loan, with resultant foreign supervision, or the poorhouse, is just around the corner. No strong man has appeared to guide the country out of the wilderness. Internecine wars have developed soldiers, but not statesmen.

Not all the tasks confronting the country grew out of the Washington conference. Some of them are "holdovers" but these must be worked out along with the others if China is to make good with the friendly nations. In order to win the things she claims are hers and keep up her head among the nations, she must in the next few years:

Purchase the Shantung railway from the Japanese.

Reimburse the Japanese for improvements made in the city of Tsingtao and Kiaochow, leased territory.

Large Program

Pay England an equitable amount for improvement at Weihaiwei, the concession soon to be returned.

Build a railway from Weihaiwei to some point on the Shantung railway.

Pay Japan for the cables, telegraphs and wireless stations taken over under the Nine Power treaty.

Settle with foreign firms for $55,000,000 worth of railroad rolling stock purchased on credit last year, $11,000,000 of which is due and unpaid now.

Disband a majority of her soldiers and provide employment for them.

These projects, if carried out, will cost not far from $300,000,000 Chinese currency. Where is the money coming from? It isn't coming at all unless there is a mighty apparent change in Chinese conditions.

Migratory School Law Proves Success

SACRAMENTO — Schools on wheels are a success.

To meet the growing problem of the child without a permanent home the California legislature a year ago passed the migratory school law in order to take education to those whose homes shifted so frequently they were unable to attend regular schools.

Already juvenile delinquency and the growth of lawless tendencies through lack of proper training have been greatly decreased in California by the educational opportunities offered to more than 1000 formerly neglected children under the provisions of the law, according to a report to Governor W. D. Stephens by Georgianna C. Carden, state supervisor of school attendance.

Approximately 200 children of migratory families have been instructed under the direct supervision of the state department of education in the last year, Miss Carden said, and more than 1000 others have been helped to educational training by exacting administration of the new statute in every county of California.

The report pointed out the work of educating children of migratory families is rapidly passing the stage of experimentation and that literally thousands will be given assistance during the next year.

Russian Is Fined for Professional Marriage

LONDON.—Arthur Lazarus, a Russian, is probably the first man who ever took up marriage as a profession.

Lazarus was fined for bigamy in a London police court after it was shown that he had married a succession of women to prevent their deportation. Lazarus' fee was $100 a marriage.

COMMENT THAT'S ALL

Keep Up With Youth
The Change in Boys
What Every Mother Knows
About Pins and Needles

By Gil A. Cowan

CALIFORNIA and Glendale have their share of old people, most of them retired, and many of them considered successful in their home communities. It might be said that Southern California has more than its share, although Glendale cannot boast the percentage or age per cent held by Pasadena and Long Beach.

And they have, in instances, a pretty hard job in keeping up with the ideas evinced by the young people. Not to say that an old person living here a while doesn't get young ideas and hover around the hundred mark before "checking out" from this earthly sphere of ours.

So, as I was saying, these sit around the Pacific Electric youngsters fool the fellows who station and figure out what a boy is interested in. And they fool worse the person who doesn't sit around the station and watch them, but sits in his office and imagines what Young America will do next.

They sure keep you guessing nowadays, don't they, folks?

The New York World has this to say about "The Change in Boys", a very interesting dissertation for those who come from Kansas and know "Bill" White, publisher of the Emporia Gazette:

"William Allen White has made the discovery that there are things in the psychology of the modern boy of which he was ignorant. His disillusion came with the fiasco of the plan for a Fourth of July parade of boys with dogs at Emporia, Kan., with a prize to reward the youngster who had the largest number of canine pets in line. To the surprise of the distinguished editor and philosopher not a boy with even one dog turned out.

"Times change and boys change with them. The trouble with many writers who pose as authorities on juvenile character is that in creating a fictional type of boy hero they are too apt to lose sight of the variations which occur in youthful interests from generation to generation. They populate their Boyvilles with boyish figures embodying all that is best of traditional juvenile attributes who yet are not true to modern form.

"Boys of the present day have so many new interests that going fishing, visiting the old swimming-hole and even fraternizing with dogs have declined in the relative scale of importance. The modern boy inclines more to mechanical things. He fools about motor cars and tinkers with wireless telegraphy and has Boy Scout affiliations, and there are always the movies. Huck Finn would find himself a back number in a group of boys of this day and generation. The wonder is not that no Emporia boys were found ready to parade with their dogs, but that a canny authority on boyish character should have thought they would be."

There was a day when the medall of the story, but what's the use and have a whole flock of lads eating a box of crackers each and then trying to whistle for a prize of 15 cents.

Gosh a mighty, but I'd hate to stage a contest like that now. The boys of today would whistle before you began. And that isn't all of the story, but whats the use of telling what every mother knows?

Here is some information dug out of the U. S. Press Association dispatches to The News which should interest the women readers:

The production of needles in the United States, consisting almost entirely of knitting-machine and sewing - machine needles, amounted to 264,000 thousands in 1919, valued at $6,015,839. Of this amount, 163,906 thousands, or 62.1 per cent, were knitting-machine needles, valued at $4,186.327.

Common or toilet pins were reported in pounds and packs at the censuses of 1919 and 1914, but the gross at previous censuses; therefore no comparison can be made to show the increased quantity, but the value increased 499.2 per cent during the period from 1899 to 1919.

Of the 92 establishments reported in 1919, 25 manufactured knitting-machine needles; 2 sewing-machine needles; 11 common or toilet pins; 10 metal hairpins; 10 safety pins; 12 hooks and eyes; and 38 snap fasteners and clasps.

Connecticut reported $13,904,286, or 47.4 per cent, of the total value of all products manufactured in 1919, $2,260,239, or 81 per cent, of the common or toilet pins; $486,489, or 32.9 per cent of the metal hairpins; and $347,239, or 41.7 per cent, of the hooks and eyes. The 9 establishments in New Hampshire practically confine their operations to the production of knitting-machine needles, in which it is the leading state, reporting a product in 1919 to the value of $1,639,088, or 39.2 per cent of the United States total.

Connecticut ranks second in this variety of product, and was also the leading state in the production of safety pins. In 1919 "All other products" included eyelets, paper boxes, hook and eye tape, paper clips, laundry pins, hardware, metal hose supporter trimmings, and machinery of various kinds for use in the industry.

Mrs. Belle Richmond, now the leading merchant of furs in Tacoma, began work as a furrier in Scotland when she was a young girl.

1922'S COIN CROP IS DECLARED TO BE FAILURE

American Pockets so Full of Silver That Small Ones Are Not Made

WASHINGTON, July 21.—The 1922 coin crop a complete failure. American pockets are so full of silver that there will be no nickels, dimes, quarters, or half-dollars coined this year, F. E. Scobey, director of the mint, announces.

As for pennies, only a paltry $70,000 worth have been coined at the Denver mint, as against $492,000 worth the preceding year.

"There have been approximately $46,000,000 worth of pennies coined since the mint began in 1792," said Mr. Scobey. "So what's the use of making more, when about the only things you can still buy with a penny now-a-days are lollypops?"

This is the first time in 108 years that half dollars have not been coined; the first time in ninety-three years that no quarters have been coined; the first time in ninety-seven years that no dimes have been coined; with the exception of the year 1877, the first time in fifty-seven years that no nickels have been coined; and with the exception of the years 1815 and 1823, the first time since the beginning of the mint in 1793, 129 years ago, that so few pennies have been coined.

First Since 1905

This is the first year since 1905 silver dollars have not been coined. In 1905, $8,812.000 silver dollars were coined. This year the order is for $50,000,000, under the provisions of the Pittman act, which required that for every dollar melted into bullion during the war to be sent abroad as a loan to our allies, a new silver dollar would be coined when the war was over. About $150,000,000 in $20 gold pieces will be coined this year.

The total number of coins which have been minted since the mint started are:

Gold	
Gold	
*$50 gold piece	$ 150,950.00
$20 double eagles	2,451,867,120.00
$10 eagles	517,979,850.00

Seaplane Goes Out to Call Back Ship

CHICAGO—One of the giant boats of the Chicago Steamship lines left here bound for Duluth.

Two hours later the management learned of a shipment which should have taken that particular steamer. General Manager Hoskins, who lives at the Edgewater Beach hotel, rushed out to Aviator Nimmo Black and explained his trouble. A moment later they were under way. Ten minutes later the steamer was sighted and the seaplane made a landing on the water.

General Manager Hoskins ordered the ship to return to port.

Wilmington Chosen Hereford Show Site

KANSAS CITY, Mo.—The first National Hereford Show ever to be held in the east will be staged September 4 to 8 at Wilmington, in connection with the Delaware State Fair, R. J. Kinzer, secretary of the American Hereford Association, has announced. The association's headquarters are located here.

Prize winning entries will receive awards aggregating approximately $6,000, Kinzer stated.

All entries for the show will be handled by the association, and the closing date is August 10. Exhibitors from New York, Massachusetts, Connecticut, New Jersey, Delaware, Pennsylvania and West Virginia, together with several Middle Western exhibitors, have announced their intention of competing for prizes.

Give Coin to Build Hospital's New Wing

NEW YORK—White Plains, Scarsdale and Hartsdale citizens have been making an effort to raise a fund of $200,000 to construct a wing to the White Plains hospital and thereby increase the number of beds from forty-seven to 100.

The report the second day of the drive showed that $113,031 has been pledged. Two hundred business men concentrated their efforts to obtain the funds.

College Bred Have Best Chance, Claim

BIRMINGHAM, Ala. — College sheepskin or high school diplomat?

Dr. J. F. Dillard, pastor of the Southside Baptist church, of Birmingham, champions the former.

"Less than one per cent of our men are college graduates," says Dr. Dillard. "But of that one per cent the records show that seven-eighths achieve success. It is to be regretted that, of the high school students graduated every year, only one out of every hundred completes a college education. I estimate that the college-bred man has forty chances to succeed to one of the high school graduate?"

Does the college education pay? Figure it out for yourself.

Sweetheart Message 29 Years Old Comes

DUQUOIN, Ill.—After twenty-nine years of waiting A. T. E. Haines, former Cairo, Ill., man, now living in St. Louis, has received an invitation to a party from a sweetheart of long ago, who, at that time, lived in Smithland, Ky. The invitation was neatly folded and scented, having reached Cairo March 23, 1893, when Haines was in knee breeches.. The letter lay hidden securely in the crack of an old-fashioned desk in the Cairo post-office undelivered for three decades.

UNITED STATES IS LEADING COTTON PRODUCTION

This Nation Is Supplying More Than Half; Probe Rising Oil Prices

By U. S. Press Association

WASHINGTON, July 21.—The National City bank of New York says that despite the efforts made in the past fifty years to develop cotton production in other parts of the world, the United States has so increased its share of the world's cotton crop that we were in 1920 supplying 62 per cent of the world's raw cotton output as against less than 20 per cent a century earlier; though with our abnormally small crop last year our share of the world's 1921 output was about 53 per cent.

The tabulation of world cotton production in different periods and the percentage of the world crop in bales of approximately 500 pounds, supplied by the United States is shown below:

Annual average 1800-10—World, 1,060,000; United States, 140,000; all other countries, 920,000; per cent, United States, 13.20. Annual average 1851-60—World, 4,216,000; United States, 3,242,000; all other countries, 974,000; per cent, United States, 76.89. Annual average 1901-05—World, 18,070,000; United States, 10,801,000; all other countries, 7,269,000; per cent, United States, 59.77. Annual average 1914—World, 26,022,000; United States, 16,135,000; all other countries, 9,887,000; per cent, United States, 62.00. Annual average 1920—World, 21,787,000; United States, 13,440,000; all other countries, 8,347,000; per cent, United States, 61.68. Annual average 1921—World, 15,593,000; United States, 8,340,000; all other countries, 7,253,000; per cent, United States, 53.48.

Probe Rising Oil Prices

The first step taken under the United States senate resolution authorizing the investigation was to send questionnaires to more than 300 oil companies calling for information on prices, organization and business and financial condition. The aim is to set forth as a basis of investigation the condition of the crude oil and gasoline markets in 1920, 1921 and the first six months of 1922 and the reason for the changes in prices of crude oil, gasoline and other products.

Business Improvement

Practically every industry for which figures have been received by the department of commerce show growing activity. Out of 42 production movements reporting, 38 showed an increase and only four declined. Prices have shown the greatest increase in more than two years. Forward orders are increasing and business again presents the picture of prosperity. The department comments: "In the past it has been the excesses of the prosperity period that have been responsible for the depth of the depression that followed. The present is no time to discard the caution that the recent period of depression has taught." As a further word of caution the statement continues: "Prices on the average have not fallen below about 40 per cent over the pre-war level. They are now nearly 50 per cent above that level. No one knows at what level prices will finally become stabilized, but it is believed that care should be used in placing large forward orders for raw materials at prices much above the present level."

Reserve Board Optimistic

The wholesale price index number of the United States bureau of labor statistics shows an increase of five points for May. Prices in Great Britain also show an increase, the index number compiled by the federal reserve board for international comparison advancing four points, as compared with an increase of nine points in the similarly constructed number for the United States.

An increase of production is noted in highly finished lines of manufacture as well as in basic industries. The advance has been especially marked in iron and steel, and industries which are large consumers of iron and steel products, such as automobiles, foundries, machine shops, etc. May copper production was 266 per cent of that of May 1921, and showed a very large advance over the preceding month. Zinc output also increased, while stocks were less than half those at the close of May 1921. Building activity has continued practically unabated. The value of contracts let during May was $323,000,000, which was about 50 per cent larger than for May, 1921. This was substantially the same as the April figure.

Decided improvement in tanning and moderate improvement in the output of boots and shoes are noted. Wholesale groceries and hardware show a very pronounced advance over April, and compare favorably with the sales of a year ago. In dry goods and shoes a seasonal recession is reported, but the business in most districts does not vary greatly from that of last year. The retail trade for the first time in many months is in excess of that of a year ago.

The Geological Survey reports the condition in 1920 in all coal mines as follows:

	Man-days	Pct.
Worked	180,010,000	74.5
Lost account strikes	5,914,000	2.4
Lost account other causes	55,733,000	23.1
Potential working time	241,657,000	100.0

In the bituminous fields there were two types of strikers. In late June, July and August there occurred a series of short strikes by the day-men in Illinois, Indiana and parts of Ohio and Pennsylvania, that led to an increase in the day-wage scale in most of the organized fields.

In addition to these strikes of the day-men, there was a long contest in Alabama in which 8,490 men were out for an average of 94 days.

The most bitterly contested strike of the year occurred in the Kenova-Thacker (Mingo) district, in the valley of Tug river between West Virginia and Kentucky. According to the operators' reports 3,540 men on the West Virginia side and 1,061 men on the Kentucky side were out for a total of 502,164 man-days during 1920.

Labor In Anthracite Mines

While in bituminous mining there was widespread unemployment and under employment in 1921, the anthracite industry employed more men than in 1920 and worked the same number of days. The reports of the anthracite producers to the Geological Survey including operations in the Bernice basin of Sullivan county show a total of 159,499 men, an increase of 10 per cent over 1920. The increase was general throughout the anthracite region.

The average number of days worked by the mines and breakers was 272, an increase of one day over the 1920 average. At washeries and dredges, however, working time decreased because of the small demand made for steam coal, and the average working time of all operations was 271, exactly the same figure as in 1920.

The breakers of the Schuylkill region made the best record in average working time, 278 days against 270 in the Lehigh and Wyoming regions. For washeries the working time averaged 118 days and for dredges 176 days.

The number of men on strike in the anthracite region, according to the reports of the operators was much less than in 1920 but more than in the years 1917 to 1919. A total of 52,117 men are stated to have been on strike at one time or another for an average of 16 days each.

CELEBRATES FREEDOM FROM DEBT

The Fourth of July celebration in Elizabeth, New Jersey, marked the burning of the last bonds issued by the city, thus freeing it of all indebtedness. A great funeral pyre was built and the reclaimed bonds burned while hundreds cheered. A few years ago Elizabeth went into bankruptcy, and now is able to lay claim to being the only city in the country entirely free of debts.

Government of Italy Would Stop Divorces

ROME—Acting on a suggestion from the Vatican, the Italian government has decided to take steps to check the wave of divorce which is overrunning the country. Fiume presents facilities for divorce. Those desiring a divorce immediately assume citizenship of Fiume, where a divorce is a simple matter. The Italian government announces that it will not allow anyone to return to Italian citizenship who has temporarily forsaken it for the purpose of divorce.

ART MODELS FOR ONE FEATURE OF LEGION SHOW

Most Unusual Stunt Will Be Offered on Program at Big Time Tonight

Promising a sensation that will not be forgotten for a fortnight, R. S. Van Rensselaer, accompanied by two pretty models, tonight will present for the American Legion's approbation the act beautiful, entitled "Insight to an Artist's Model's Life."

"Van," as he is known by the commercial artists of Los Angeles, made a big hit with a similar stunt at the "Bughouse" ball at Hotel Alexandria recently and he is recommended by Claude G. Putnam, a resident of this city, as one of the cleverest chalkologists either on or off the stage.

For the time being "Van" is off the stage after doing the big time and settling in Los Angeles. He has donated his services to attract a big audience to tonight's meeting of the Legion at their hall, 610 East Broadway.

Two Acts of Vaudeville

Two acts of vaudeville are from a Los Angeles booking office, while the California Orioles, who play for the dances at the Odd Fellows' hall here every Wednesday and Saturday night, will compete for jazz honors with Eddie Moniot's home town orchestra.

Columns could be written about these clever musicians who are giving gladly of their ability and all they ask is that every Legion member and former service man eligible to membership be present to hear the reports of committees and "get the habit" of attending the meetings.

To add a little midnight flavor to the affair, which will be one of the biggest jinx nights ever staged by the local Legion, Les Marston will take a night off from the Lunch Box and serve hot dogs and coffee free to those present.

Special Scenic Effects

H. D. Charlton is in charge of special scenic effects for the Legion committee while Mr. Moniot, Emil O. Kiefer and Gil A. Cowan are other members who guarantee the entertainment to be more than satisfying. Commander James F. McBryde will call the meeting to order promptly at 8 p. m. and as a feature of the business session every member will be called upon to introduce himself, name the outfit with which he served and give his present occupation and address.

Arrangements are being made for 150 and many visitors from Eagle Rock, Tujunga, Burbank and Los Angeles posts are expected to attend.

Underwear Dishtowels Cause Family Fight

DETROIT. — The question is: Has a wife the right to take her husband's summer underwear in the winter time and make dishtowels of them?

Peter Valinch, of Royal Oak, says "no," and made it emphatic when he told his wife, Mary, about it by punching her in the nose.

Mary, the wife, says "yes," and retaliates by having Peter chucked in jail for assault and battery.

Mary is supporting the four children, while Peter cools his heels and temper behind the bars.

Likewise, Mary says, she has plans for a divorce.

Which looks like the affirmative answer wins.

Scholarship Prize to American Countess

PARIS. — The Countess de Chambrun, who was Miss Clara Longworth of Cincinnati, has just been awarded the Bordin prize by the French Academy for her "Giovanni Frorie," which was published last year. This prize is given as recompense for scholarly work of exception value.

Circus Rider Thrown Into Cage of Lions

PARIS.—Louis Juge made each night "the circuit of death." Which is to say he rode a bicycle around the edge of a cage in which were several mature and ferocious looking lions. Small boys voted it the best stunt in the circus.

Opening night of the Paris engagement made Juge nervous. Just as he reached full speed the bicycle slipped and precipitated him among the lions. His rib broken, he was unable to move.

The crowd was horrified. Several women fainted. Tremblingly, circus employes went to Juge's rescue. Only the lions, leaving the wounded man considerably alone, seemed bored by the whole affair.

Discover New Means to Do Vaccinations

PARIS.—Danger of infection during surgical operations may be done away with entirely by means of vaccination, according to a report made before the Academy of Science by Drs. Pierre and Louis Bazy. An injection of the very microbes that cause infection properly given at a correct period before the operation may make the patient absolutely immune to the attacks of these germs, the physicians state.

Absinthe Substitutes Are Barred in France

PARIS.—A law to enforce the prohibition of absinthe by shutting the lid equally on all absinthe substitutes has been passed by the Chamber.

In the course of debate the United States was cited as a country where "morphine and cocaine have replaced alcohol."

PILL ROLLERS AND MERCHANTS PLAY ON SATURDAY

First Week Day Game to Be Tried Out; Regular Battle on Sunday

Tomorrow afternoon the Glendale merchants will play their first Saturday baseball game of the season when they take on the Western Wholesale Drug company team of Los Angeles at the Merchants' ball park, Park avenue and San Fernando.

The druggists have not announced their lineup or battery as yet, but whatever it is, according to Manager Cobb of the Merchants, it'll be good. "Ty" made sure of that before he scheduled the game.

For the Merchants, Walt Heidler will occupy the pitcher's box with King on the receiving end. The locals have been holding practice sessions this week in anticipation of the hard games during the next two days, and are said to be in rare form.

Game Sunday, Too

Then on Sunday afternoon is a game that promises to be a bear-cat. "Rube" Ellis is to bring his Rivers club to Glendale to mix with the locals. Cobb, who is rarely shaken by anything, seems to be a little awed at the import of his own announcement, for he predicts that this may develop into the game of the season.

"I haven't seen the Rivers team play, and I can't even tell you who's on it outside of "Rube'," he stated, "but that's enough to let me know that there's going to be a real game. If Rube Ellis organized and coached the team, it must be good."

Local fans will remember "Rube" Ellis as one of the former outfielders of the Angels, playing in the Pacific Coast League. Regardless of the rest of his team, he should be a hard nut for the Merchants to crack, and it is probable that he has gathered together some good material.

Manager Cobb couldn't give the Rivers battery. On the mound for Glendale will be either Kid Anderson or Harris, and each of them can pitch a tight game. "Babe" King will catch.

Some Change, What?

"Glendale fans who haven't been out to the baseball park for the past few weeks don't know of the changes that have taken place out there," says Manager Cobb. "We have built up the backstop into something substantial. Back of it we have built a long row of bleachers three tiers high, so that a large crowd can be seated and still see all parts of the diamond and field."

The city also has made some substantial improvements at the ball park. The grounds have been scraped, watered and rolled, and the Merchants' diamond is now generally conceded to be the fastest grounds in this vicinity.

The Merchants are asking the local fans to lend their support at this first attempt at a Saturday game, and to come both Saturday and Sunday with the expectation of seeing baseball as it should be played.

"They won't be disappointed," says Cobb.

Local Elks Beaten By Huntington Park

Glendale Elks Bowling Team No. 2 last night lost by a narrow margin to Huntington Park Elks No. 2. The match was rolled on the Angelus alleys in Los Angeles, and the final result was 2 to 1 in favor of the Parkmen.

The first game was lost to Huntington Park by a decisive score when Pennock, with 211, was the only one of the quintet who passed the 150 mark. In the second game Cupp rolled the remarkable score of 245, while Clark and Pennock remained above 200, Brown and McGillis finishing somewhere in the depths. The high scores, however, pulled Glendale to a victory by a thirty-pin margin.

With the score of games one all, the last was a hard-fought battle. Neither team made any phenomenal scores, however, only one above 200 being made, while several on each team blew. Luck was against the locals, however, and the Parkers won by 38 pins, taking the match.

The score:

Hunting Park B. P. O. E.

AMERICA'S BIG POCKETBOOK

American homes are insured against fire for nearly 92 billion dollars—nearly four times the national debt. We owe a lot, but we have a giant pocketbook. The total income of the American people for six or eight months would wipe out every penny of the national debt. We may be in a financial swamp, but only up to our ankles.

Newport Club Plans Long Distance Race

The first long-distance cruiser race of the season will be staged by the Newport Harbor Yacht club over the 110-mile course around Catalina Island, starting Saturday night at 7 o'clock and racing until some time Sunday morning.

There will be two observers aboard each ship and the skipper will be penalized if he touches the throttle after he crosses the line, for the stakes are high, being first and second prize cups presented by George Vibert, chairman of the regatta committee, and the third prize is a silver pitcher presented by Mrs. Shirley E. Meserve.

Jess Payne's Albicore and Bill Warmington's Norfolk are two of the favorites, while Herb Cornish and his Pow Wow will make a fine showing if moderate seas are encountered. There are nine boats entered now and eyes of the yachting fraternity are centered on this event of the week-end.

Port Commander Claude G. Putnam of the S. C. Y. A., who resides at Whispering Pines, Glendale, will be sailing master on the cruiser Norfolk, having aided Warmington in winning the race on June 24.

The winner of the race will be subject to challenge during the coming regatta which will be held at Newport August 6 to 13.

It doesn't make any difference whether a man is inspired or not if he can get other people to think he was born with a gift.

TOOTS MONDT AND HACKENSCHMIDT MEET TONIGHT

Grapplers Due to Clash at Odd Fellows' Hall on West Broadway

Tonight at 8 o'clock Glendale sport fans will view the first professional wrestling watch to be staged on a local mat in many moons. At the Odd Fellows hall over Ralphs grocery on West Broadway, John Hackenschmidt of Glendale is to meet Joe "Toots" Mondt of Greeley, Colorado, in a heavyweight, catch-as-catch-can wrestling match. The time limit is two hours and the best two out of three will decide the affair.

Colonel J. D. Fraser, Glendale's chief of police, is to referee the affair, it has been announced.

Hackenschmidt took his last workout before the event yesterday evening at the Glendale Union High school gymnasium. This morning he took a run over to Griffith park and back, and called it a day. He is now resting up preparatory to this evening's combat.

Works Out in L. A.

Mondt has been training at the Union League club in Los Angeles, where he is acquainted with a number of the "Knights of the Cauliflowered Ear", it is understood. He was scheduled to put in an appearance in Glendale late this afternoon, or possibly in the early evening.

The personalities of the two principals, as well as their build, are interesting.

"Toots" is a mean looker in street clothes, and he puts on a "lot of bally swack". Over six feet tall, and weighing about 200 pounds, he is almost perfectly developed and proportioned. During his infrequent visits to Glendale his appearance on Brand boulevard is the signal for a chorus of whispers between members of the more dangerous sex: "Who is he?" Look at that guy!" "Some sweet daddy, eh?"

But that doesn't mean that he is a boob on the mat. Carl Johnson, veteran New York wrestler who is now in Glendale says that Toots is a clever wrestler and that he shows the results of his extensive wrestling experience. For Toots seems to have met about all of the known celebrities.

Of course, Johnson says practically the same thing about Hackenschmidt too, and he means it, for he and "Hack" have worked out together. The only deduction we can draw is that tonight's match ought to be good, with each man standing about the same chance.

"Hack" is one of these strong guys.

"What size collar do you wear?" he was asked.

"Vell, I'm pooty thin now and I vear an eighteen. Usually in the vinter i vear an eighteen und a half, und sometimes a nineteen."

Both of the contending parties are making plans for future conquests, and both seem to feel assured that they are going to come out the big end of the horn tonight.

All arrangements for staging the match have been completed, and the affair will go off without a hitch, it is promised. The three local boys and the Pasadenan who are to appear in the two preliminary matches have been notified that the affair will start promptly at 8 o'clock.

Sport High Spots

If the present plans of the athletic committee of the Pasadena Post of the American Legion are carried through, the Crown City organization will be able to enter one of the fastest relay teams in history in the coming California state convention of the ex-service men at San Jose on September 5 to 8, and also at the national convention at New Orleans next fall. Three of the four-man squad will include Charles Paddock, world's champion sprinter; Morris Kirksey, who has been Paddock's closest rival on the coast for several years, and Tuffy Conn, former Pasadena high school and Oregon "Aggie"" cinder path and football star.

Much speculation has been going the rounds of late regarding the ultimate selection of a college to be attended by Bill Kerr, Huntington Beach miler who cleaned everything in the west during the past season. First, it was announced that the star distance man would cast his lot with Stanford, then it became known that he had paid his tuition at Occidental—now Kerr comes forth with the statement that he has not yet decided, but that he will absolutely enroll in one of the following institutions — Occidental, Stanford, Ohio State or Chicago.

Kerr must have taken a course in "press agenting."

And still Wade Killefer's abused Angels are able to win! It seems as though the numerous pannings to which the L. A. team was subjected during its recent disastrous road trip were just the needed impetus to produce a winning aggregation. Yesterday they trimmed their ancient rivals, the Terrible Tigers, for the straight time, making it eleven straight victories. Some record.

Tagging All Bases

No. 26 for Roger Hornsby came with a man aboard in the sixth inning heralded the passing of Marquard and ultimately the Cards' 5 to 4 victory over the Braves in ten innings.

The poor, broken Indians: All they have been able to do is win eleven straight baseball games, the eleventh being an 8 to 2 victory in which Uhle pitched the Senators silly.

Although again outhit by the Reds, our noble champion Giants slipped under the wire to a 7 to 3 victory through their ability to assail Donohue when a safety meant something.

The disastrous western trip of the Dodgers was marked by their second victory since abandoning home-cooking, burly Grimes outlasting Kauffman and the Cubs, 11 to 7.

Minimum Fine Is Given Ping Bodie

SAN FRANCISCO, July 21.—Imposing the minimum fine possible under the rules—$10 and one day's suspension—on Ping Bodie, who went after a fan at Los Angeles Wednesday who used insulting language to the player, President William H. McCarthy wired the management of both Los Angeles and Vernon clubs requesting that police officers be instructed to eject from the ball park any spectator using vile and abusive language toward players.

The Sport Crucible

By Davis J. Walsh
International News Service Sports Editor

NEW YORK, July 20.—If Leonard was not Leonard, which is equivalent to saying if a rattlesnake was only a desirable bedfellow, Lew Tendler would be the surest thing for the lightweight championship since Gans beat Nelson in their first scrap, according to the views of Freddie Welsh, former holder of the title. As it is Freddie is not altogether certain that Tendler won't win anyhow when the men meet a week from tonight.

The writer interviewed Welsh on the subject today at his health farm, Summit, N. J., where the overgrown waist line is made svelte, and modish, and found that Freddie regarded the impending issues as a meeting of two of the greatest lightweights the game ever knew, with little to choose between them.

"Tendler is easily the best man Leonard has faced since he became champion," is the way Welsh expressed his views on the fight. "He is not only a great hitter, but has proved that he has that indefinable something that distinguishes a champion from the rest of the field. Gameness and ability to take are two assets all champions must have and Tendler has both.

Then his unorthodox style of fighting, regardless of what Leonard thinks about it, will bother the champion.

"I believe Leonard will have no trouble at all in doing 135 pounds at 2 o'clock but I also think that he fights better at catch weights. Tendler, on the other hand, is a young bull at the weight.

"If the weight weakens a fighter he notices it above all else in the lack of sting his punches carry. If Leonard's punches are not as heavy as usual he will never drop Tendler."

Welsh says he believes the bout will go the limit.

SPORTS CHATTER

By BILL UNMACK
PACIFIC SPORTS SERVICE

Are we getting back to the hero worship days of the ancient Olympic game periods?

More and more the present day public is taking a keen, close and enthusiastic view of all sports and when the said public subscribes $250,000 for a memorial to a great athlete, present another with a fully furnished home, gives another a valuable token of esteem presented at a banquet costing $25 per plate or names a stadium in honor of a great sprinter and athlete, then it looks as though we are drifting towards those days of ancient Rome when the athlete and winner of an event was a real notable.

And that is not all. Even kings are conferring honors and turning the humble citizen into a blue blood by giving a title for achievements made at the last Olympic games. That surely is getting back to pre-historic Olympic periods. The greatest "walker" produced in the last Olympic games was Ugo Frigerop of Italy. He was the surprise of the two walking events and won each so handily that the other competitors looked like novices next to him. Italy went wild over this fast-moving native son of theirs when he won both world championships at Antwerp in 1920, and now last week the cables announced that this humble little Italian athlete had been received and knighted by the kings for the "glory he had gained for Italy."

The ancient peoples looked on a winner of an Olympic games event as the greatest character of the respective nations to which he belonged. Every nation was alike in this line of thought and Olympic game winners of those days never had to worry about their next meal. A victor in those games was made for life both as far as his living was concerned and in every other way.

Gradually we are getting round to shower more honors on our great athletes of all descriptions. We well remember when Duke Kahanamoku returned to Honolulu after winning the swimming events in the 1912 Olympic games how he was acclaimed in his native town and the citizens presented him with a home in which he still lives.

It was only a week or more ago that Walter Hagen returned from England carrying in his suit case the English golf title. New York golfing enthusiasts rallied to a banquet by the hundreds and presented Hagen with a suitable present and those attending the banquet paid twenty-five dollars a plate for the privilege of honoring the English golf title holder—the first American-born to win such an honor.

Today at Princeton there is an immense ice hockey rink being erected at a cost of $250,000 in honor of that great all-round athlete, Hobey Daker, killed in the war in the aviation service. Baker was a Princetonian but he was an all-round athlete, an American and one of the most popular men any college has ever produced. This is attested to by the fact the fund in his memory was originally planned for Princeton alumni only, but there was such a clamor from the general public to honor the lad that at least half the subscriptions have been made by the public with no affiliation with Princeton.

The WORLD OVER

By FRANKLIN B. MORSE.
PACIFIC SPORTS SERVICE

As long as horse-racing, polo, trotting and pacing, and the love of a canter through the country continue, the demand for good horseflesh will continue in spite of the tremendous inroads made by the automobile. The fact that there is an increasing interest in the forms of recreation mentioned is attested by the fact that there has been a constantly growing demand for well-bred animals.

Sheriff B. M. Dean of Smith county, Tenn., a lover of horses, and a man who knows what is going on in the state which is renowned for the production of the finest horses in the country, is authority for the above statement although it is but corroborative of what many other competent people have declared in the recent past.

According to Dean, one of the reasons for the increased demand is the fact that people are able to afford them, and many of them are using cars more from a utilitarian point of view while the horse continues to be the provider of the real sport.

There is a tremendous demand for fast horses from the running centers and second only to this is that for the well-bred trotter and pacer.

Further proof of the correctness of Dean's statement is found in the fact that the majority of state fairs throughout the country, the greater part of which hold trotting meets, report that their entries have been greater than in a number of years past. In the case of California there is an entry list of 168 horses which is more than has been recorded since the palmy days of the game before folks in rural districts knew much about what an auto looked like except what they saw in the pictures.

Good breeds of Kentucky horses are by no means cheap, $800 having been paid by a Kentuckian for a good two-year-old riding filly. The majority of good, stylish riding horses are held at about this figure, and despite the automobile, the good driving horse is bringing around $500.

California, noted for its fine polo ponies, has been going in for the last couple of years to a greater extent in the breeding of these fast and sturdy little mounts. Many calls have come from the east for them and each year the eastern polo fields are likely to see a greater number of California-bred animals in action. They are prime favorites, and the best of the country's polo players have placed their stamp of approval on the breed. In the last international polo matches held in England, a large proportion of the ponies used hailed from the Pacific coast.

Training to Swim English Channel

DOVER, England, July 21.—Charles Toth of Boston, who will attempt to swim the English channel on August 22, has opened training quarters here.

"I am in the best possible condition," said Toth. "I do not believe the Channel swim is any more difficult than the Boston Light swim which I accomplished."

Governor Dispatches Troops Into Concord

CONCORD, N. H., July 21.—Governor Brown has ordered the adjutant-general to send two companies of troops to this city as a result of the riot that broke out here between strikers and strikebreakers.

SUPERB GOWNS IN AGNES AYRES' VEHICLE

'The Ordeal' at T. D. & L. Gives Her Opportunity to Show Latest Styles

Rich toilettes, lots of them, of the latest style, are a feature of "The Ordeal," Agnes Ayres' latest Paramount starring vehicle which opens at the T. D. & L. Theatre for two days beginning today.

Miss Ayres interprets the part of a young widow who inherits a fortune which she will lose if she marries again. Widows with money are expected to be well-dressed, hence Miss Ayres' wardrobe in this picture is said to be a real delight to the feminine eye.

For instance, there's a pheasant blue evening gown with opalescent sequins and crystal beads, finished with velvet to match. Specially striking are slippers and fan of blue phcasant feathers.

For motoring and street wear Miss Ayres has a moleskin suit and a gorgeous ermine wrap with an ermine toque trimmed with white toque feathers.

Simple but striking in its line is a dinner gown of taupe chiffon embossed in velvet flowers of the same tone.

"Sawing a Lady in Half," the mystery that has baffled thousands, is exposed on the screen before your very eyes. See how it is done. There will also be seen at this same program the Harold Lloyd comedy, "Ask Father"—a riot.

Many Millions of Russ Are Starving

LONDON, July 21.—Twenty-four millions of Russians are starving, Dr. Fridtjof Nanzen reported to the League of Nations council here this afternoon.

The condition of the famine areas is most desolate, Dr. Nanzen said. Many of the peasants are so weak from starvation that they cannot till the fields or harvest crops. Dr. Nanzen asked for the establishment of an international commission to direct Russian relief work. At present he is the head of an international committee that was appointed last year, but he has been hampered by lack of funds.

Lots of people like to eat corn on the ear. Most of it goes there, too.

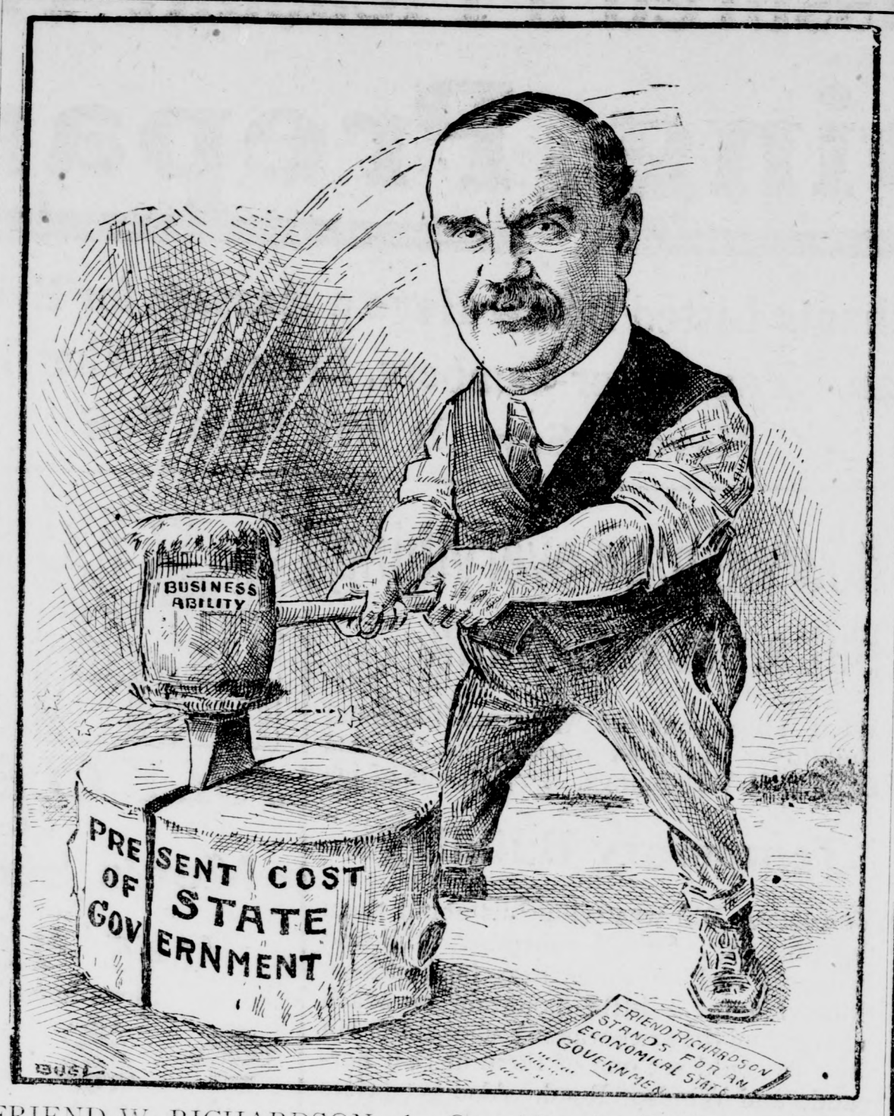
HE WILL SPLIT THE BLOCK



FRIEND W. RICHARDSON, the One Man in California Who, If Elected Governor, CAN and WILL Cut the Cost of State Government and Reduce the Taxpayers' Burden.

Shortly after the old Southern Pacific political machine was eliminated from politics in California, Friend W. Richardson was appointed state printer. He cut out wasteful methods and inefficiency and reduced the cost of school books. At that time the biennium cost of state government was about $22,000,000 while it is now about $91,000,000, or at least $88,000,000, according to the governor's own estimates. In contrast, the office of state treasurer has maintained the same number of employes as it had when Richardson took it, although the volume of business has increased materially.

Contrasting this record with some others and it is interesting to note that this is one department of state government, at least, that is conducted with the same care as to efficiency and economy that the incumbent always displayed in his own affairs, in which he has been most successful.

Friend W. Richardson has never had anything to do with political machines, past or present, excepting to fight them, and in fighting the present state machine, whose hungry maw is fed by state taxes, it has been discovered that in the halcyon days of the old order of things, the high cost of running the government wasn't a drop in the bucket to what it is these days.

Mrs. Nellie Brewer Pierce, who is a Los Angeles attorney, has disproved some of the claims that the increased cost of state government in California has been caused by the sums expended for the protection of health, charity anud similar purposes, in commenting upon which she says in part:

Let us examine the facts in the matter, as shown by the federal census bureau.

In the group of states heretofore given whose urban residents exceeded 50 per cent of the total population there were three states of nearly the same population as California—New Jersey, Michigan and Indiana.

In the following table is shown the total governmental cost payments per capita in the first column. The second column indicates the aggregate amount, on a per capita basis, of the expenditures of each state for conservation of health and sanitation, charities, hospitals, corrections, schools and highways. The third column gives the percentage that these expenditures bear to the total governmental cost payments.

	Governmental Cost Payments Per Capita	"Humanitarian" Payments and Highways Per Capita	Percent of Total Cost
N. Jersey	$ 8.22	$6.71	.816
Michigan	9.19	6.62	.72
Indiana	5.00	3.83	.766
California	11.33	5.91	.52

It appears that California expended $5.91 for each resident in the state on the so-called "humanitarian functions" and roads, or 52 per cent of the total cost. This is a smaller percentage than any other state in the group.

Failure of Harding Plans Terrific Blow

WASHINGTON, July 21.—Collapse of the railroad labor board's efforts to make peace between the warring factions in the rail strikes came as a staggering blow today to the administration's hopes and the belief was expressed in official quarters that President Harding will be compelled to take another drastic step to stave off the industrial paralysis that is steadily creeping upon the country.

With the rail strike settled President Harding and his advisers believed there was a chance of beating off the menace of coal shortage through a resumption of mining behind troop protection. But the failure of peace plans at Chicago brings the government squarely up against the problem of what to do with the coal, even though it be brought out of the mines in sufficient quantities to meet the emergency.

The railroads are already in a congested condition and crippled by lack of motive power, according to information to government sources.

Bullets Fired Into Fruit Loading Shed

ROSEVILLE, Cal., July 21.—Several shots were fired into fruit loading sheds in the Southern Pacific yards here, according to announcement of railroad officials. No one was reported injured. The shots are alleged to have been fired from a hill side some 200 yards distant. The strikers denied knowledge of the shooting.

President Will Call Conference, Belief

CHICAGO, July 21.—The belief that President Harding will call a conference in Washington of railway executives and labor leaders within the next few days in an effort to bring about settlement of the rail strike was prevalent in usually well-informed circles here.

Admission by the United States railroad labor board that it has been unable to bring about an adjustment and that all peace negotiations have been abandoned will, it is believed, result in direct intervention by President Harding. Unless a settlement can be brought about through the efforts of the president, it is declared, a finish fight between the railroads and the unions portends.

Except for the possibility that President Harding may act, negotiations for the settlement of the strike are at a standstill today. Conferences that have been going on for more than a week have reached a decided impasse and Ben W. Hooper, chairman of the labor board, has announced that the board has no peace program pending nor any negotiations under way at this time.

Four Men Arrested As Result of Raid

LOS ANGELES, July 21.—Four men giving their names as William Donlan, Sam N. Kijarowzes, George Eassilion and A. W. O'Connor were arrested in Redondo boulevard by federal authorities in an alleged liquor raid, according to word received here.

Exchange of Ideas Sought by Shippers

LOS ANGELES, July 21.—For the purpose of securing an exchange of ideas with coast shippers and the U. S. shipping board, a hearing of section 28 of the Jones shipping bill and problems concerning shippers was opened before representatives of the shipping board in the federal building.

Among the visiting officials representing the shipping board are Clifford W. Smith, secretary of the board; Charles F. Gerry, attorney examiner representing the interstate commerce commission and F. W. Relyea, district manager of the board.

One of the most important matters scheduled for discussion at the meeting was the subject of preferential rates for cargoes carried to foreign ports in American ships.

Numerous Appeals for Cars Received

WASHINGTON, D. C., July 21.—Plans for supplying coal cars when mining operations are resumed under President Harding's mandate are now being worked out by the interstate commerce commission. Attorney General Daugherty made this announcement.

Numerous appeals for cars have reached the White House and the department of justice, Daugherty said, the coal operators complaining that even if the mines were opened there would be no cars available.

Reactionaries Must Go, Order In Germany

BERLIN, July 21.—In the face of the brewing Bavarian storm which threatens to assume secessionist fury the German government today has begun a merciless "housecleaning." Officials of the government said they recognized the necessity of cementing the structure of the republic which has just passed through a terrific crisis that showed how precarious some of the pillars of state still are.

Backed by the defense of the republic act, which will become effective Saturday, the government proposes to "clean out" the monarchist strongholds. All persons of reactionary tendencies, who hold public positions, will be removed and supplanted by republicans.

On the heels of the news that seven provincial presidents—all old nobility—have been dismissed comes information of an impending cleanup in East Prussia—a hot bed of reaction.

Three Lads Locate Unknown Man's Body

LOS ANGELES, July 21.—Several under-sheriffs, accompanied by Constable G. W. Reynolds of Inglewood, left here for a lone spot in the Baldwin hills, in search of the body of a middle-aged man, which is said to have been discovered late yesterday by three lads.

Because the body was in such a lonely place and it was so hard to reach the gully, Constable Reynolds was unable to recover the body last night.

As a rapid fire pie maker, Miss Laura House of Mascotah, Kan., is believed to hold a record. Her figures are twenty pies in forty-five minutes.

Sensational Charges to Be Stricken Out

CHICAGO, July 21.—The hearing at which Mrs. Katharine Thorne, wealthy widow of the late vice president of Montgomery, Ward & Co. is trying to have set aside a trust fund of $350,000 made out in favor of William C Camp, her divorced husband, came to what is believed an abrupt end.

The session was no more than convened when counsel for Mrs. Thorne and counsel for Camp went into secret session, after which they emerged with the statement that certain things would "be expunged and expedited."

It is believed to mean that the sensational disclosures made by Camp on the stand are about to be stricken from the records and the hearings rushed to a close.

Separate Agreement With Strikers Near

PARKERSBURG, W. Va., July 21.—The Baltimore & Ohio railroad is ready to make a separate agreement with its striking employes. C. A. Gallaway, vice president of the road, in charge of operation, in an announcement posted here today, invited the strikers into a conference. The Baltimore & Ohio is prepared to meet the committees representing employes with a view to settlement of the strike, since, as the notice stated, the railroad board at Chicago had admitted that it could not adjust differences between men and companies.

American Government Warns World Powers

WASHINGTON, July 21.—The American government has informed the world powers at the Hague conference that it countenances no arrangements made by American citizens with soviet Russian authorities which tend to jeopardize the rights or interests of citizens of other countries. The American charge at the Hague was instructed on July 15 to inform the powers to this effect, it was announced this afternoon.

Glendonian Club to Give Dance July 28

Glendonian club members are to be hosts Friday night, July 28, at the first of a series of midsummer specialty dances, in the Chamber of Commerce hall. It will be an informal affair and dancing will begin at 8:30 o'clock. There will be brilliant feature dances and a splendid orchestra will furnish music for a long dance program, it is announced.

REGULAR YANKEE DRUG STORE FOR RUSSIAN FOLK

Brooklyn Woman in Charge of Newly Established American Pharmacy

MOSCOW, July 21.—There is a regular American drug store in Moscow and an American woman graduate pharmacist in charge of it.

It is in the free drug shop, opened today by the Medical Division of the American Relief Association for the free dispensing of drugs to persons who apply with a prescription from a reputable physician of Moscow.

Caroline Klein Robbins, a graduate of the Brooklyn College of Pharmacy, is in charge.

"I never expected to see an American drug store in Russia," she said, nor to have the opportunity to help open one."

The drug store will be a most beneficial adjunct to the large programme of medical relief being carried out by the American Relief Administration in the hospitals, public homes and dispensaries of Moscow. The American Relief Administration, under the direction of Dr. Henry Beenwkes, Chief of the Medical Division, and Dr. William Nicklesen, Medical supervisor of the Moscow district, is supplying these public institutions for the care of children and the sick of all ages with everything they need to carry on their work of relief of pain and disease.

Fully Equipped

The medical supervisor goes into a hospital, where perhaps there is not a hypodermic needle, thermometer, a box of quinine, a bottle of ether, a hot-water bottle, an X-ray plate, an icebag, or a blanket. When he comes out and makes his allocation of medicines, hospital equipment, including surgical instruments, blankets, sheets, pajamas and bed slippers—which can be delivered just as soon as the hospital sends a conveyance to the medical warehouse—he leaves behind him a fully equipped institution.

The newly - established drug shop will be situated in a fine white stone building, once the home of Professor Katuar, an eminent pianist, of Moscow. Up the wide Empire stairway, with its marble steps and bronze rails, where once women in brocaded satins and men in evening clothes marched to the strains of the orchestra, there will soon be seen a procession of quite different characters. Women seeking medicines to cure their babies of pain and men searching for the remedies that may save the lives of their wives or mothers will come to the drug shop and present the prescriptions which their physicians or dispensary has given them.

The reason for the opening of this free drug dispensary by the American Relief Administration is the almost total lack of drugs in this city and the inability of the people to pay for the few that can be obtained. It is said that practically the only drugs in Moscow are to be found on the common market, and these are not of standard make and possess slight medicinal value. Quinine, for example, has been extremely expensive and almost unobtainable. There is great need for this drug in Russia because of the large amount of malaria each year.

Hearty Endorsement

The pharmacy has the heartiest endorsement of the Moscow Board of Health. That body has furnished the building and all equipment, including counters, shelves, bottles and scales. These were obtained from local drug stores that were compelled to close because of lack of supplies.

A list of reputable physicians in Moscow Board of Health and the Moscow has been compiled by the Medical Division of the American Relief Administration, and to these physicians has been given the list of some drugs on hand in the medical warehouse for distribution in Russia. Physicians will be able to conform their prescriptions to these drugs. Certain bases and elixirs for the making of prescriptions, which the American Relief Administration did not have in stock, will be contributed by the board of health.

Besides these drugs, the American Relief Administration supplies hospitals and other institutions with disinfectants, vaccines, lyster bags and lime for water purification, hospital supplies and surgical instruments. Certain simple surgical dressings also can be dispensed from the drug shop. The American Relief Administration medical programme for the Russian unit is no doubt the largest medical relief enterprise ever undertaken in the world. Approximately $8,000,000 worth of supplies have been contributed by the American Red Cross and the United States government from surplus army supplies, and these are now being distributed by the American Relief Administration to the destitute institutions of Russia.

Glendale Evening News Job department for high class printing.

Miss Beth Nelson to Marry July 29

The marriage of Miss Beth Nelson, daughter of Mr. and Mrs. W. B. Nelson of 1303 North Brand boulevard, to Kenneth Carpenter of Peoria, Ill., will take place Saturday, July 29, 1922.

A series of pre-nuptial affairs are being given complimentary to Miss Nelson.

Mrs. Clara Phillips' Past Life Is Probed

LOS ANGELES, July 21.—Convinced they are in possession of an abundance of evidence to prove to any jury that Mrs. Clara Phillips not only beat to death with a hammer Mrs. Alberta Meadows in Montecito Drive on July 12, but that the crime was committed in cold blood, the sheriff's office and district attorney's office were nevertheless puzzled by several contradictory aspects of the case today.

The district attorney's forces today centered their efforts on an intensive study of the accused woman's life and her relation with several men who are said to have figured in her past. Prosecution authorities were also fathoming a report that Mrs. Phillips and her personal friend, Mrs. Peggy Caffee, confessed eye-witness to the slaying, visited the quarters of a bootlegger endeavoring to secure liquor the day preceding the murder. The suggestion was that if Mrs. Phillips committed the crime while under the influence of liquor it was not premeditated. Opposed to this, the district attorney's office claims to have evidence that two days before the crime Mrs. Phillips purchased a revolver.

The question of Mrs. Phillips' age was another question today, as it has not been definitely settled whether she is 23 or 27 years old.

The diary of Mrs. Meadows, though not made public, was said by authorities today to have proved that there was but one man in her life. He was her husband, who was killed a few months ago.

Four Young People Make Big Trip Alone

An interesting little family group arriving in Glendale today after a train trip from Akron, Ohio, includes three brothers and one sister, 14 or under, who come to join their father and make their home in Glendale.

Stanley Schultz, Jr., aged 14; Kenton Schultz, 12; Gertrude Schultz, 10, and Malcolm Schultz, 7, are the little travelers, and their father, J. S. Schultz, resides at 109 South Cedar street. Mr. Schultz and another son, Marian, aged 5, came to Glendale last February, leaving the other children in a home in Ohio.

Mr. Schultz has since married a second time and now has a home ready for his family of boys and the one girl, all of whom will attend Glendale schools.

Stanley, Jr., assumed the role of father and protector on the trip west and all four children report kind and thoughtful treatment from fellow travelers and train employes.

Miss Beth Nelson Is Luncheon Guest

A number of Glendale and Hollywood people, friends and sorority sisters of Miss Beth Nelson, motored to Pomona Wednesday to a luncheon and kitchen shower given in her honor by her aunt, Mrs. C. W. Illingworth.

After the final course of the luncheon the honoree was presented with a clothes hamper containing gifts of Pyrex and aluminum. The afternoon was spent playing auction bridge.

Miss Hester Nelson, sister of Miss Nelson, arrived from Illinois with her grandmother, Mrs. Wikoff, in time to be a guest at the affair.

Mrs. D. C. Cason of Pomona will entertain Monday with a luncheon complimenting Miss Nelson.

Favors Deportation Of Guilty Foreigners

WASHINGTON, July 21.—The attorney-general would be directed and authorized to take steps to cause the imprisonment and deportation of foreigners convicted of participating in strike riots and other labor disturbances in this country as well as the deportation of the families of such foreigners by a resolution of Representative Edmonds, Republican, Pennsylvania, who announced he would introduce when the house re-convenes on August 15. The resolution would make a special appropriation of $500,000.

Spring mechanism invented by a Minnesotan helps one man to operate a two-man lumber say.

Plan to Enjoy House Party at Coronado

Harry Bennett, Jr., of Grand View, Glendale, and Robert Frazee of San Diego, will be joint hosts at a pleasant house party at Coronado that has been planned for this coming week-end. Their guests who expected to leave Glendale at noon today, will make the trip by motor with Harry Bennett, Sr.

The girls are to be domiciled at the home of Mr. and Mrs. S. R. Frazee, and the boys with the Bennett family. One of the pleasures held in happy anticipation is a day on the water for which a launch has been chartered in advance.

Those leaving here today were Margaret Longley, Dorothy Houston, Dorothy Simms, Katherine Stofft, Winifred Parker, Tommy Wood, Ralph VanHoorbeke, Evert Smits, Harry Bennett, Sr. They will be joined at Coronado by Margaret Frazee, their hosts Robert Frazee and Harry Bennett, Jr., and Mrs. Bennett. The guests will return to Glendale next Monday.

Mrs. Walter Sackett Here From Colorado

Mr. and Mrs. W. C. Sackett of 372 Burchett street, are enjoying a summer visit with their daughter-in-law, Mrs. Walter Sackett and little daughters Mariana and Elizabeth of Fort Collins, Colo. Mr. Sackett will join his family in August and return home with them. Mr. Sackett is bacteriologist at the experiment station at the Colorado state agricultural college at Fort Collins.

Hoover Plans for Rationing of Coal

WASHINGTON, July 21.—Regulations for the distribution and rationing of coal will be promulgated by the government in a few days, Secretary of Commerce Hoover announced.

Hoover said various government departments were co-operating with the interstate commerce commission in working out plans for distributing coal after mining operations are resumed. Priority will be established, he said and coal shipped first to those industries and sections of the country which are in the greatest need.

ALWAYS TWO SIDES to a Question!

Inasmuch as Messrs. Goode and Belew have taken occasion to state they had purchased the right to use the name Fanset Dye Works of Glendale, and in order that you may hear the other side of the question I would like to have you read that portion of a lease contract (from John H. Fanset to Ray E. Goode and Oscar H. Belew), pertaining to use of the name Fanset Dye Works of Glendale.

Page 4 of said Contract Lease, dated May 19, 1919, and signed by John H. Fanset, lessor, and Ray E. Goode and Oscar H. Belew, lessees:

AS AND FOR A FURTHER CONSIDERATION for the use of the name, "FANSET DYE WORKS OF GLENDALE," lessees hereby agree with lessor that they will send lessor as long as he retains a cleaning establishment in the City of Los Angeles, and as long as lessees maintain a cleaning establishment in Glendale, under the name above set out, all of lessees' cleaning work which lessor agrees to clean at current Los Angeles wholesale prices and lessees further promise lessor that during the times above set out they will not erect or maintain or operate a dry cleaning plant.

LESSEES FURTHER AGREE that a violation of the last above mentioned covenant will automatically work a forfeiture of their right to use the name "FANSET DYE WORKS OF GLENDALE," and in such event lessees further agree that lessor may thereupon re-establish a cleaning and dyeing business within the territory limitations above set out.

Said work to be transported by lessees to and from Los Angeles establishment of lessor at their own proper charge and expense.

NOTHING IN THIS AGREEMENT shall be construed as a granting of right by lessor to exclusive use of the term "FANSET DYE WORKS," it being particularly understood and agreed between the parties hereto that lessor, John H. Fanset, shall at all times reserve to himself for corporate, individual, or other use or uses said name so established by said lessor.

On June 26, 1922, Messrs. Goode and Belew voluntarily ceased taking their cleaning to John H. Fanset and without giving him notice of their intentions to do. I consider they violated their contract in so doing and have no right to the name "Fanset" in any way, shape or form.

I am in Glendale to serve those who want FANSET CLEANING AND DYEING. You will receive the same Fanset Quality work that you have for the past eight years. It must be good, otherwise who would want the name?

COACHELLA VALLEY LAND OWNERS AND OTHERS

To any one owning land in Coachella Valley or to any one interested in information regarding this valley and its wonderful possibilities, I shall be glad to give information to the best of my ability. Government forecast indicates that Coachella Valley land is destined to be the most valuable agricultural land in the southwest.

Dates, early grapes (the harvest is now closing), grapefruit and early vegetables make this an outstanding agricultural possibility. Good land is yet available at low prices.

CERTIFICATE OF BUSINESS
Fictitious Firm Name

The undersigned does hereby certify that he is conducting a drug and sundries business at 1023 South Brand Boulevard, Glendale, California, under the fictitious firm name of Park Avenue Pharmacy, and that said firm is composed of the following persons, whose names and addresses are as follows, to-wit:

E. E. Brown, 109 East Park Avenue, Glendale, California.

Witness my hand this 20th day of July, 1922.
E. E. BROWN.

State of California, County of Los Angeles, ss.

On this 20th day of July, in the year nineteen hundred and twenty-two, before me, G. O. Piercey, a Notary Public in and for said county, residing therein, duly commissioned and sworn, personally appeared E. E. Brown, known to me to be the person whose name is subscribed to the within instrument and acknowledged to me that he executed the same.

Witness my hand and official seal.
G. O. PIERCEY.
Notary Public in and for said County and State of California.
July 21-28 Aug 4-11-18

TREASURED KINDNESS

When Sarah Croates, 70 years old, died recently in the poorhouse in London, an ordinary picture postcard was buried with her. She had no relatives, no one ever went to see her. The postcard was her only treasure, it was the only mail she had ever received during her half century stay in the almshouse and had been sent to her by a nurse.

"ASK FATHER"

Ladies' Aid to Run Dime Bus for Fund

The Ladies' Aid society of the Congregational church at Eagle Rock has been grouped geographically into sections as it was too large a number to meet at one time in one home. The section of which Mrs. Edward Thompson is chairman, that portion of the city west of Windermere avenue, is to meet at her home, 334 North Ellenwood Drive, on Thursday, July 27, at 1:30 p. m. to discuss and plan their quota of summer work for the bazaar.

Any who desire to ride to her home may meet at 222 West Colorado boulevard at 1:30 where they will be met with an auto and charged 10 cents for the trip, this money being turned into the aid society fund for materials.

To prove his skill with the razor, a London barber had himself blindfolded and shaved two men in two minutes ten and two-fifth seconds.

Col. D. C. Collier Cleared of Charges

WASHINGTON, July 21—Colonel D. C. Collier, commissioner general of the United States to the Brazilian international centennial exposition, has been exonerated from all charges of "dishonesty or moral turpitude" the state department announced. Examination of charges preferred by Frank O. Harrison, a former member of the commission, proved, the announcement stated, that no corrupt or illegal conduct had been established.

Our famous peanut brittle will be offered, Saturday only, for 15c per pound. Made before your eyes. Peggy's Sweet Shop, 113 West Broadway.—Advertisement. 7-21

The holothurian or sea-slug is a small-like creature, which can throw off its vital organs when frightened and replace them all within a few weeks.

MERGER OF THREE CITIES FAVORED BY OFFICIAL

City Manager W. H. Reeves Gives His Views Upon Consolidated Idea

(Continued)

ficials upon Burbank or Eagle Rock, according to Mr. Reeves. He emphasized the point that the consolidated community would have to be governed by representatives chosen from the whole district and that maybe Glendale's whole administration would be displaced. He said that the thing to do was to select the "best officials, the most efficient and the most economical."

Burbank and Eagle Rock would benefit by merging with the local light and water systems in the opinion of Mr. Reeves.

"Glendale at the present time is furnishing light and water at a less price than any other community around here," he stated. "The rate is less than Los Angeles to the householder. Los Angeles has some wholesale rates which are lower. In regard to light and water we are in better shape than the other communities.

Problems Are Mutual

"All our problems are mutual and our interests are mutual. If one part of the district needed something, it could call the combined resources of the district to get it.

"Take the sewer problem. All three communities have sewer problems that are identical. These three communities should get together on their sewage problem and have one plant to serve the three cities. What is the use of waiting until 1950? By the time Los Angeles gets ready, if we want to adopt her terms, we can consider them. Meantime, we would be protected both as to our health and comfort.

Transportation also would be favorably affected by a consolidation in the opinion of Mr. Reeves. He said that the likelihood of getting decreased rates and increased service would be greatly increased.

"There are a lot of incidental advantages," asserted the city manager. "The larger the city the more political power it wields—the more influence it has in the country. A consolidated city could get representation from the state whereas as it is now we don't get anything except a few crumbs which fall from the table."

In conclusion, Mr. Reeves remarked that the city administration had no desire to advocate the merger too forcefully or to give either Eagle Rock or Burbank the impression that they would lose their identity. He said, however, that "Glendale would welcome anything which would bring these communities together."

Charles DuBois Is Injured In Explosion

The many local friends and acquaintances of Charles DuBois, former graduate of the Glendale High school and resident here for four years, will be grieved to hear that he has been in a precarious condition in Mexico, New York, since the Fourth of July, when he suffered severe facial injuries as the result of an exploding cannon. His aunt, Mrs. A. M. Beamon, with whom he lived while in Glendale, received a letter yesterday stating that the injured youth is now out of danger and that it is now expected that physicians will be able to save his eye, from which three pieces of steel have been removed.

According to the report, young DuBois was in the act of loading the cannon when it prematurely exploded, blowing steel and powder in his face and temporarily blinding him. In the two operations which followed, it was found necessary to remove thirty-three pieces from his face and three from one eye.

After graduating from the local high school in June, 1921, DuBois studied a year at the University of California, Southern Branch, where he prepared himself to enter the Boston College of Technology. At the time of his accident he was visiting in the New York city with his grandmother, Mrs. S. F. Emery, prior to going to Boston. It is now thought that he will be able to carry out his original plans and enter college next month.

MOTORING TO SEATTLE

Mr. and Mrs. Ed Durrent of 1111 East California avenue are motoring north to Seattle, Wash., for a visit with their son and daughter. They will be away for about two months.

Miss Waunita Emery Is Guest of Honor

Miss Waunita Emery of 329 North Kenwood street was the honoree of another delightful occasion on Thursday afternoon when her aunts, Mrs. A. L. Bryant and Mrs. C. D. Lusby, entertained a large number of friends at a uniquely arranged china shower at the home of the former, 1635 South San Fernando Road.

The house was tastefully decorated for the affair with an abundance of vari-colored summer flowers, the living room and dining room being especially adorned as a tribute to Miss Emery, who is to become the bride of Jack Eaton of Santa Barbara on August 1. The former was bedecked with hydrangeas, while the latter was suggestive of the occasion with its daintily arranged decorations of pink sweet peas.

The entertainment of the afternoon consisted of a series of two-minute talks by all present, the subjects being furnished them by the hostesses. A fitting climax to this novel diversion came when the bride-elect was forced to talk on "His Proposal."

Following the "stump speeches," Miss Emery was furnished with numerous cards, upon each of which was inscribed a conundrum giving her a hint regarding the hiding places of the gifts which had been brought by the guests. With the admonition that she "would get just as much as she could find," Miss Emery's searches resulted in revealing every gift.

A three-course buffet luncheon was served by the hostesses during the afternoon, after which the guests enjoyed themselves by examining the many beautiful and useful presents.

Those present included, in addition to the hostesses and the guest of honor, Mesdames W. H. Goss, William Goss, Harriet Randall, C. E. Russell, Henry Johnston, W. M. Johnston, Anna Goss, Emma Burket, Harold Salisbury, S. O. Parsons, Frank C. Weller, Esther Bradley, Emil Kiefer, Seymour Smith, John G. Huntley, Ray Borthick, Julia Long, Warren Roberts, Owen C. Emery, David L. Gregg, A. D. Burket, E. U. Emery and Ellis Thomas; Misses Marjorie Imler, Melba Cornell, Isabel Isgrigg, Mary King, Maude Salisbury, Olive Bell Emery and Josephine Emery.

Prior to 1825 all women's shoes were made without heels.

ROTARIANS HEAR DIFFICULTIES OF LAUNDRY WORK

W. E. Hewitt In Charge of Unique, Pleasing Program at Big Plant Here

(Continued)

seventh among those of the country, and more and more as the people learn how their garments are handled and how much more convenient and economical it is to have the work done out of the house.

Wonderful Showing

"In the State of California thirty-five per cent of the people are sending their work to the power laundry. This is a wonderful showing, inasmuch as the per cent of work in the United States just tops ten.

"There are several reasons for this," continued the speaker, principally because the average plant in California is more modern and is well equipped to turn out a better grade of work than those in the east. Because of the volume, the prices are not so high, and people find it to their advantage here to send their laundry out and devote their energy to other things!"

After telling the several methods of having the work done, Mr. Hewitt described the process through which each piece must pass. First, the garments are marked, sorted, washed in soap and hot water, rinsed seven or eight times, put in centrifugal wringers, distributed to the different departments, starched and ironed, then sorted, wrapped and delivered.

Uses Soft Water

Particular emphasis was laid on the fact that the Glendale Laundry uses a soft water which has only 4 per cent of hardness, due to the spring supply. Non-injurious soaps are used, all clothes are sterilized and the utmost care is used in their handling, the speaker said. Taking collars, for an example, Mr. Hewitt stated:

"We are running through this laundry about 300,000 collars a year. We charge 4 cents for laundering one and when you figure the original cost of a collar is only 15 or 20 cents, it seems a little out of proportion.

"But the wonder is, how can the laundry turn it out so cheaply! A collar requires 17 handlings to make it a finished product. It is first picked up by the driver, marked, washed, put through the wringer, starch rubbed in by hand, placed in the dry room, run through dampening rolls, pressed, ironed, seam dampened, shaped, moulded, edged and finally sorted for the bundles and delivered."

Needs Special Training

The difficulties a laundryman meets with an unscrupulous public also were revealed and particular attention was paid to materials which are found in merchandise. To remedy the latter condition the laundrymen are supporting a department in the Mellon Institute at Pittsburg, Pa., where a study of fabrics is made and the results of these findings are sent to the manufacturers.

"Laundry workers require special training," said Mr. Hewitt in closing his remarks, "and the work of the plant requires great care, speed and accuracy."

Following his remarks and a hearty farewell song, the machinery was set in motion and the Rotarians were given the opportunity of seeing Glendale Laundry in operation, a sight well worth any man's time.

Irregulars Badly Defeated, Is Report

DUBLIN, July 21.—Republican irregulars have completely evacuated Waterford and are retreating southward, abandoning large quantities of war materials on the way, it was announced today.

There was violent fighting at Waterford before the free staters broached the rebels' lines and penetrated the city. Artillery on the heights flanking the river kept up a heavy bombardment of the city for 48 hours.

As the rebels retired they mined and set fire to many buildings. While the southern push of the free staters continues, the chief seats of action were Waterford and Limerick.

Artillery has been active at Limerick, but today the fighting had died down to sniping and skirmishing.

The irregulars still hold several strongholds at Limerick.

"At Roscrea eleven irregulars were captured while attempting to ambush free state troops.

A number of persons are reported to have been killed and wounded by the explosion of a land mine in County Waterford.

Youngsters Enjoying City's Wading Pool

A hundred or a hundred and fifty youngsters are now disporting themselves daily in the wading pool at the municipal bath house, according to Manager Roy C. Biddlecom.

This "cement pond" has been filled with water for about a week now and the "kids" seem to be making good use of it. The diameter is about twenty-five feet and the depth is only about two feet so that drownings are impossible.

The big plunge got its first taste of water yesterday when it was given its first bath. It will not be ready for the public before the first of August.

We make that tasty peanut brittle different—it's easy to take—at Peggy's Sweet Shop. Get acquainted price 15c per pound. Saturday only.—Advertisement. 7-21

Industrial Situation Steadily Grows Worse

WASHINGTON, July 21.—Confronted with an industrial situation that is hourly growing worse, President Harding met with his cabinet again today for a thorough discussion of governmental relief agencies. It was the fourth cabinet session in two weeks devoted entirely to seeking ways and means of ending the double menace of the coal and rail strikes.

Reports of curtailed train operations, slowing down of industry and troop movements in many parts of the country were brought to the White House by the cabinet members.

Although the strikes are recognized as separate problems and are being dealt with accordingly, it is nevertheless realized that for all practical purposes they are interdependent on each other and both must be settled quickly if the country is to escape what is gloomily predicted as "the worst winter in years."

It is the rail strike, however, that is causing the president and his advisers the most immediate concern. Serious as the coal strike is, the administration feels that temporarily, at least, the burden has been shared with the governors of the coal-producing states and there is little the federal government can do but mark time and see if the operators can make good on their promise to produce coal if furnished protection for the diggers.

Fairbanks' Company Shooting In Verdugo

Douglas Fairbanks' company completed "shooting" scenes this morning at Verdugo Woodlands for the "Robin Hood" production they have been working on the last several months. Waldo C. Twitchell, assistant director, dropped in to The News office this morning to greet Gil A. Cowwan, city editor, who was under Lieutenant Twitchell's command at Morrison, Va., air station, early in 1918, while serving in the army.

Three Teachers Are Selected by Board

Three teachers last night were elected to the faculty of Glendale Union High school.

A meeting of the board of trustees at the high school was attended by all of the members of the board except Dr. H. V. Brown, who is out of the city. Principal George U. Moyse and Irving H. Oliver, clerk of the board, were present also.

Mrs. Carol Y. Koltz, daughter of Rev. and Mrs. E. H. Willisford of Houston, Texas, but formerly residents of Glendale and now spending the summer here, was elected to the department of mathematics. She was graduated from Glendale Union High school and later from Pomona College. Last term Mrs. Koltz taught at the Redondo High school.

Miss Grace E. Rensch of 1628 Electric avenue, Venice, was selected for the local history department. She was graduated from Pomona College and received her master's degree at Stanford. Last term she taught in the high school at Arroyo Grand.

Miss Albertine Pemberton of 1310 South St. Andrews place, Los Angeles, was chosen for the French department. She is a graduate of U. S. C. where she taught during the last term. She spent a year abroad studying French idioms and customs.

Miss Mildred Johnson, who had been hired for the French department, has advised the local board that she has accepted a position in the normal school at Kalamazoo, Michigan.

Benefit to Be Given for Catholic Church

Plans are being completed for the afternoon and evening affair tomorrow at the home of Miss Emma Broseau at 439 West Vine street as a benefit for the Holy Name Catholic church. The afternoon and evening programs will include cards, music and dancing and there will be no admission charged, but the usual offering will be received.
